

Creating a user account for an adult patient

The patient must create a user account with the information provided on the authorization statement given to them by their medical cannabis health care practitioner. Once the statement is received, the patient will proceed to NJMCP.NJ.GOV If the patient plans to register a caregiver, the patient must initiate their registration and enter the caregiver's information on their registration which will allow the caregiver to create their user account.

1. Select 'Create Patients-Caregivers accounts' > Select 'Adult Patient'

A screenshot of the NJMCP website's login page. The page has a light blue background. At the top, it says "Login". Below that are two input fields: "User Name" with a red asterisk and "Password" with a red asterisk. A blue "Login" button is centered below the fields. Underneath the button are links for "Forgot Password?" and "Forgot User Name?". At the bottom of the page, there is a dark blue navigation bar. A dropdown menu is open, showing "Create Patients-Caregivers accounts" with a question mark icon and a downward arrow. The dropdown menu is white with a red border around the "Adult Patient" option. Other options visible are "Minor Patient" and "Adult MCP". At the bottom of the navigation bar is a link for "FAQs" with a question mark icon and a downward arrow.

2. Select the option for 'Patient Registration'
 - a. Provide information exactly as it appears on the healthcare practitioner authorization statement.
3. Create your anticipated username
 - a. If a username is already in use, a message will appear stating 'username is not available'
4. Enter your email address > select the button 'Verify Email Address' > enter the code you have received
5. Enter your password of choice > select the security question of choice in the event you need to reset your password
6. Select the button 'Save'.
7. Once you have created your user account, you can proceed to login into your account and begin the registration process.
