

EV ACCESS LLC

EV CHARGING FOR ALL

Our Mission

To Provide Easy Access to Level 2 EV Chargers

The problem

Currently there are approximately 85,00* EV's registered in New York State Alone. With only approximately 10,500** Public chargers available.

This massive deficit has led to major wait times to charge a vehicle leading to frustration and stress.

* <https://afdc.energy.gov/data/search?q=Electric+Vehicle+Registrations+by+State>

** <https://www.nyserda.ny.gov/All-Programs/Drive-Clean-Rebate-For-Electric-Cars-Program/Charging-Options/Electric-Vehicle-Station-Locator#/analyze?region=US-NY&fuel=ELEC>

Our Solution

Since we joined the MakeReady EV Program

We are able to provide Level 2 EV Chargers to our customers for little to no cost*. Thus adding more chargers to the grid which equals less waiting time.

* Depending on program funding

How it works

CONTACT US

Contact us to schedule a site walkthrough

SITE VISIT

We will survey the site and determine the amount of chargers & inspect the electrical service

SUBMIT APPLICATION

Upon your approval and signed agreement we will submit the application and start the process

INSTALL

After all paperwork is approved we will install EV Chargers in as little as 2 weeks*

*Varies by jobsite

Why now?

The U.S Government is shelling out billions of dollars for utilities all over the country to upgrade their electrical grids to accommodate the increase of EV's
