Purpose-built with a focus on functionality and exceptional equine care, the facility features advanced medical equipment, spacious treatment areas, a riding arena, and numerous other accommodations tailored to meet the needs of both horses and their owners. This dual purpose development highlights Norco's ongoing commitment to supporting and nurturing its equestrian community.</p>	<p><b>Shady Acre Farm</b> 3423 Temescal Ave <i>Established 1973</i></p> <p>Shady Acre was started by two "city folks" in 1973. Over the last 50 years, Wayne &amp; Elaine Lindsey have developed their acre into a farm that focuses on small-scale agricultural production. The primary focus is poultry and egg production, but the farm also features a small goat herd, garden boxes, citrus trees, and berries. A recent renaissance of small-plot agriculture has inspired Shady Acre to work on local licensing and certifications. A treat station along the goat pen and flower beds that serve as a monarch way station have made the Shady Acre a popular stop for folks in the neighborhood on their evening walks.</p>	<p><b>Medieval Land</b> 634 River Dr <i>Established 2002</i></p> <p>Welcome to Medieval Land, home of Norco's own Imperial Knights.
