

Driver's Authentications

Driver's Verifications or Abstracts confirm personal information such as name, date of birth, gender and status of license, as well as suspensions and prohibitions.

Canadian Driver's License Verification

Turnaround time: Instant

A Driver's License Verification is used by organizations that require verification on the validity of the candidate's drivers license, the class of license, date of birth, gender and name. This is a cost-effective option, in place of an abstract, for annual renewals or for those individuals that are not transporting people. *Available in all provinces. and territories*

Canadian Driver's Abstract

Turnaround time: Varies by province

A Driver's Abstract is widely used to screen drivers for ride-sharing or corporate vehicle use, in order to minimize risk and reduce insurance cost. Results will include status of license, authorized vehicle class, impaired charges, convictions, history, suspensions and prohibitions. *Candidate obtained in AB & NS.*

Automated Results Adjudication – Set your candidate criteria, then let ScreeningCanada automatically identify and adjudicate results to process candidate reports faster, so you don't miss out on the best talent.

Over 10% of drivers on the road have invalid licenses.
