

eReference Checks

Automated electronic reference checking that delivers robust, accurate and reliable feedback.

No More Phone Tag

eReferences can be completed outside of business hours, in any country. Reduce your time to hire with an average turnaround time of 24-36 hours.

Get More Accurate Insights

With eReference checks, you can receive and store feedback securely, view detailed multi-reference analytics and export comprehensive reports.

Web & Mobile Platform

References can be completed on any device across both web and mobile platforms.

Added Convenience Through Automation

The entire reference checking process can be automated with just a few clicks. Upload bulk lists of candidates into the platform to be reference checked simultaneously.

Unlimited Customizable Questionnaires

Configure and create insightful questions designed to provide unique feedback only an individual who has worked with your candidate can provide.

Automated Email & Text Notifications

Candidates and references receive email and text notifications to speed up response times.

How it works:

An eReference request is sent to the candidate to provide their references' contact information

References provide feedback securely through the ScreeningCanada web application

Multi-point insights and analytics provided about the candidate
