

Club and Playing Philosophy

“At Panthera we love having players with the right attitude and the right mind set. Players who are willing to listen to the coach and try all the things a coach as them to do on the pitch.

I have seen players development at Panthera in many different ways but one thing that makes the difference are the ones who are willing to work 5%-10% more than others. Players who are constantly asking questions are normally the ones who tend to pick things up quicker than others, so be brave to ask.

At Panthera we like to give everyone the opportunity to number one be themselves and to also express themselves when they are on the football pitch.

Winning or losing doesn't really matter, what matters is it the players are trying to do the right things and also trying to make the right decisions. That's the only way they will ever be able to learn the game by making their own mistakes, so let's let them play.”
