Section 6 – Photo Policy

Section 6.1 – Photo Roster Purpose

The purpose of the photo roster is to provide the membership and the coaches with a means to identify the official being worked with. Also, to aid in the process of accurate documentation, recognition, communication, and scratches. Therefore, it is to the Chapter's benefit to have an accurate up-to-date photo roster.

Section 6.2 – Process

It is the member's responsibility to ensure a current photo of themselves is posted in the assigning software of the Chapter. If assistance is needed to accomplish this task, the member should request assistance from their Division Representative. Pictures should be posted no later than August 1 of each season.

Returning Members may use the previous year's picture if the previous picture was approved by the President. New members should use Section 6.3 as the standard expected when selecting a picture to be posted in the assigning software.
