

"MY CHOICE, MY TEAM"

- MEET THE PEOPLE WHO MAKE IT ALL HAPPEN FOR YOU!

We've listened to your feedback, and it's time to introduce you to the wonderful individuals who keep My Choice running (semi) smoothly each day! We've welcomed a few new faces while bidding farewell to some others. Traci and Collin have moved on from My Choice this year, but they remain true friends to those we support and visit as often as they can. It's fantastic that they are still connected through their jobs with some of you who attend here! This illustrates the beauty of our field and My Choice. Every staff member genuinely cares about the work we do and the individuals we serve. You come here to discover your passion! We wish Traci and Collin all the best as they embrace their independence as providers. 🤗

Brandyn

Brandyn began his journey at a Day Program known as Midwest Community. He met Dalenna during a community group at a church event. His favorite aspect of working here is interacting with the individuals and witnessing their weekly progress both in the program and within the community. In his free time, he likes to draw, write poetry, and engage in voice-over work.

Tranish

I began my journey with NCC in 2011 before moving on to Stonewood Residential, now known as Blossom Hill Inc. One of the most rewarding aspects of my work is witnessing the bonds that develop among the individuals in our program, and seeing their friendships flourish beyond our walls. In my spare time, I cherish moments spent with my son, indulging in cooking, coloring, and enjoying a binge-worthy TV series.

Dalenna

Dalenna has been active in this field since 2010. She initially worked for Stonewood Residential and then transitioned to Blossom Hill Inc when they acquired the company. She joined My Choice in August 2019 and continued until we closed due to the pandemic, returning in August 2021. Additionally, she has become an Independent Provider through the state and is a passionate advocate for individuals and children. Recently, she started a nonprofit venture called A Place 2B Me. "I love engaging with the community and helping individuals feel included," she shares. Dalenna has one daughter, Bella, and a stepson named Bryson. Alongside her work, AP2BM, and their sports activities, she enjoys crafting, playing games, and spending quality time with friends and family while participating in fun community events.
