HEALTH GUARANTEE:

Seller is transferring this kitten to the Buyer in good faith as a healthy and well-cared for animal. At the time of delivery, Seller guarantees this kitten to be free of Feline Leukemia Virus, (FLV) and Feline Immunodeficiency virus (FIV) and to be in sound health now and for *3 days* thereafter. If the Buyer believes the kitten to be sick *during this time*, a visit to the Buyer's Veterinarian for a check-up is *required*. If the kitten is found to have a medically untreatable or life-threatening illness, Buyer's Vet *must* report this to the Seller *in writing* immediately. It is agreed by both the Buyer and the Seller that this entire health guarantee is null and void if the kitten is vaccinated for FeLV, FIV, or FIP during this time. These vaccines are very stressful to a young kitten, whose immune system is not yet fully developed, and are *not* necessary for the continued health of an indoor-only cat. (In the case of the FIP, it has also been proven ineffective against most of the strains of the Corona viruses associated with the disease)

Tomcatt's Cattery is a completely *closed* facility for safety reasons. A closed cattery means that buyers are *not* allowed to come to my home *or* cattery "to see the kittens". I have found in the past that people go from place to place "just looking" and potentially carry disease or illness to and from each. This puts *my* cats and kittens at risk. I will gladly meet you in a public place not far from my location for *in-person pick-up ONLY*. *If you do not agree with this policy, I cannot sell you a kitten.*

The Buyer must understand that this kitten/cat may require additional booster vaccinations, and will need an annual "wellness check" by the Buyer's Vet. ALL fees and costs of these are the responsibility of the Buyer. **There are no other guarantees or implied warranties.**
