PRESIDENT'S CORNER

November 11, 2025

Hello Friends and Neighbors,

Orange is the new **Green**!! Soon, very soon, White will be the new Green as Mother Nature spins around with paint brush in hand and takes us from vivid reds, oranges and yellows to crisp shiny whites adorned with glistening ice diamonds dangling from the trees. But not yet!! Think again. Think monochromatic. Think **Brown** days. It's as if she is fingerpainting in the mud. The landscape is quietly turned to various shades of brown, her tears of rain often adding to the gloomy moodiness of November. Who doesn't love muddy shoes all over your clean floors!!! It's all about perspective. But we need the mundaneness of Brown days to build our strength for next summer! We need the gloomy Brown days so we can catch up on binge watching our favorite Netflix series! There is no boating on Brown days, and we need to let our boats rest for a bit (don't we??). We need Brown day pot roast and hot cider instead of steaks and margaritas! Brown days give us cozy oversized blankets instead of bathing suits and beach towels! Brown days give us a chance to see into our neighbors' windows that are usually covered by the trees (yikes!). Brown days have a purpose! WAIT... who am I kidding!!? I am **anything** but a Brown day Girl!! I cannot wait for the Green days of summer to come back! I love summer!!!!!!!!!!!!!! But Mother Nature knows best so in the meantime . . . embrace the Brown days and remember, even on a Brown day, the sun is still shining behind the clouds! So be thankful for all the **colors** in your world!

That's all for now! **Happy Thanksgiving and enjoy your Brown days!**

Kindly,
Wendi Davidson
WCLA President

Past Events:

October happened!!! I took the month off to climb **Mount Kilimanjaro in Africa**! It was amazing, beautiful, emotional, difficult, spiritual, COLD as hell yet so close to Heaven, and . . . one of the most exciting things I have ever done! Best of all, I got to share the experience with my husband Norm and our wonderful friends Ed and Bobby Armbruster! If you are looking for some deep soul searching, I suggest you head to the top of the world (almost 20,000 feet) and climb a mountain! You will definitely discover who you really are! I cannot wait for our next adventure!

Erosion and maintaining healthy shorelines.

Get the basics about shoreline erosion control options instead of a seawall.

Review lists of recommended native options for your lakeshore.

We want to keep our lakes as beautiful as possible while maintaining areas for wildlife to live in and prevent erosion from becoming a major problem. If you are interested in learning about ways to do this, please visit <https://www.shorelinepartnership.org/>
