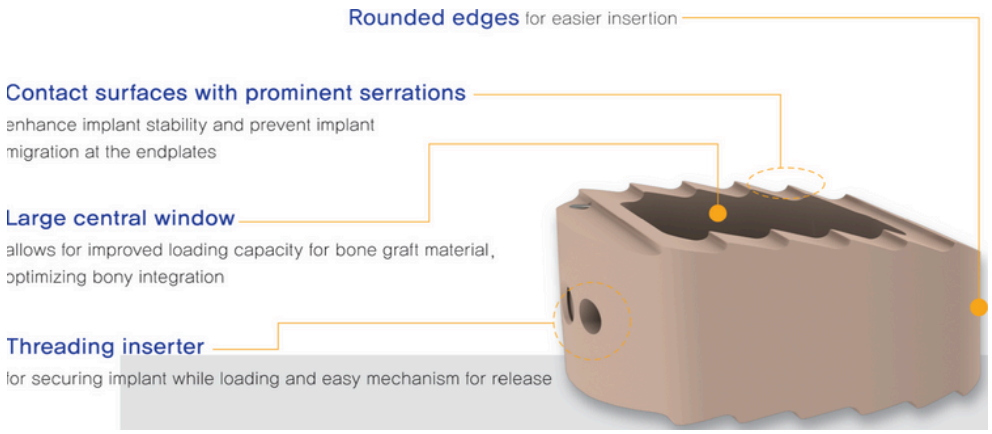
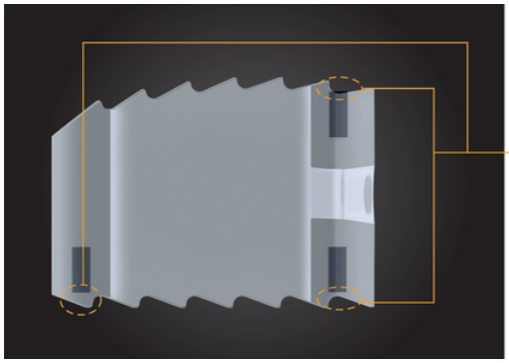
COLUMNA - CAJA PEEK CERVICAL ANTERIOR

Velofix™

La caja cervical Velofix™ PEEK está fabricada con PEEK-OPTIMA duradero, proporcionando una amplia variedad de tamaños de implante, alturas y forma anatómica para diferentes anatomías de pacientes.

Proporciona un diseño mejorado, una instalación fácil y eficiente con instrumentos ergonómicos para lograr una solución efectiva para la fusión intersomática cervical.





Tres marcadores radiográficos de varilla de tantalio permiten una mejor colocación fluoroscópica y examen postoperatorio sin artefactos durante la evaluación con rayos X
