

Jean Nordquist's

Specialty Signature Brushes®

These will make a great addition to Jean's original 9 brushes. They also have the 4" dusty pink handles and are made exclusively of natural fibers. Great for painting special features on all dolls with a focus on miniatures, Parians, & chinas

The Hair Stroke Shader \$21.00

Made of fitch hair, this brush allows the dollmaker to add detail strokes into a wet overall wash. Also add individual hairs at temples and along edges of hairdos on Chinas and Parians.

The Mini Mop \$20.00

Just like our original blush mop, this mini of goat hair works wonderfully on small cheeks to dry blend color. Try it on all your dolls 10" and under.

The Mini Sable Lash Liner \$11.50

This smaller version of our lash brush makes the job easier on smaller dolls. Works great for painted eye and lid lines as well.

Large Sable Lip Filbert \$18.00

Our large lip filbert works for larger doll lips and for applying solid areas of opaque color. Its pointed shape makes it add rather than remove color with each stroke. Try it for petal shapes beneath Embossart™ too!

Sable Slant Shader \$13.50

Blending back paint from mouth grooves is made easy with our slant shader.

Mini Fitch Blender \$13.50

The mini blender barely loaded, allows maximum control for applying soft shadows of color. Try it for brow shadows.

Mini fitch Stippler \$15.50

Apply blushes and shadows with the mini Stippler on tiny cheeks and lids.
