## BIGLITE SOLAR STREET LIGHT

| Product | Street Light | Model | BL-SSL6M 60W | Height | 6m |
|---|---|---|---|---|---|
| Light source | LED | Power | 60W | Brand | BIGLITE |
| Control Mode | Solar intelligent light control + time control, to ensure 3 to 5 consecutive rainy and cloudy days operation, Solar light works 10 hours a day | | | | |

### List of products and price

| No. | ITEM | SPECIFICATION | QTY | PRICE |
|---|---|---|---|---|
| 1 | Solar panel | 6V70 Silicon High Efficiency Solar Panel | 1PC | |
| 2 | Solar lithium battery | 3.2V 60AH Solar Maintenance-free Lithium | 1PC | |
| 3 | Solar Controller | 3.2V10A Intelligent Controller (Build-in) | 1PC | **26,000.00** |
| 4 | Street Light | 60W High Power Led | 1PC | |
| 5 | Pole and Arm | | 1SET | |
| 6 | Anchor bolt | | 1SET | |
| 7 | 2-year warranty | | | |

### Product Details and Specifications

(1)The total height of the pole is 6 meters, the top diameter is 60mm, the bottom is 132mm, the height of the main fixture is
6 meters, the solar panel bracket is made of 20*30mm square tubes with the thickness of ≥2mm, the wind resistance is up to 36M/S to ensure the normal operation of the pole in bad weather conditions.

(2)70W × 1 high-efficiency polycrystalline silicon solar panels, TPT EVA special solar module aluminum frame, conversion rate of 17.4% or more, service life of more than 20 years, warranty of 3 years.

(3)The maintenance-free lithium battery for solar energy is 3.2V/60AH*1, the discharge depth can reach 96%, the service life is more than 5 years, and the adaptable ambient temperature range is -20~+65℃.

(4)LED Chip is high-power 60W, heat dissipation effect is good, the chip is the United States brand Bridgelux brand, to ensure that the life span of chip is greater than 50,000 hours, for the power of single led chip is 1W, 180LM/W. Color temperature 6500K daylight. Pole is made of high quality aluminum.

(5)3.2V/10A solar energy special half power intelligent controller
Light control and time control Service life more than 3 years.

(6) 10 hours of lighting time per day, the first 5 hours of full power, after 5 hours of half-power. Ensure normal operation for 3 to 5 consecutive rainy days.
