

A photograph of a river with a concrete railing in the foreground. The water is dark and reflects the surrounding greenery. The railing is a light-colored concrete, and the riverbank is visible on the right side.

# KINTO

Issued in June 2024

# ACTIVE BOTTLE

ACTIVE BOTTLE is designed to support a healthy and sustainable lifestyle. Made with recycled material, it has a transparency like glass while being durable. The straw-type spout is easy to open and feels comfortable on the mouth. With the lid removed, the wide mouth makes it easy to fill drinks and clean. The flexible handle allows easy carrying in outdoor scenes.

Copolyester, Polypropylene, Silicone, TPE / Dishwasher safe

\*Made with over 50% certified recycled content

# FORIS

FORIS is an enameled tableware collection designed for those who appreciate style as well as nature. Using stainless steel as the core material, the pieces are lightweight, thin and durable. They can also be stacked and packed away easily. The plates can double-hat as lids for the same-sized bowls, a handy feature to keep dust and ashes out or for storing food.

Stainless steel (enamel coating) / Direct fire, oven and dishwasher safe  
[Handle] Natural wood (walnut, oil finish)

# KAKOMI

KAKOMI is designed for sharing delicious experiences through cooking and dining together. New to the collection is an enameled KAKOMI which is lightweight and easy to handle. It can be used on induction cooktops as well as gas, making cooking a pleasant experience even in the summer heat. Add a steam plate to enjoy healthy dishes easily. The high heat resistant pottery pot will change its clay and will be exclusively for direct fire use only. While retaining low water absorption, it becomes lighter and stronger, making it easier to handle.

[Pot] Stainless steel (enamel coating) / Induction heater, direct fire, oven, halogen heater, ceramic hob, and dishwasher safe

# RIM

RIM has a distinctive rim design, incorporating essences of both Japanese and European tablewares. The wide range of shapes and sizes acomodate diverse dishes. Due to the raised rim, the plates can be used to serve dishes with sauce or juice. The design of bowls are based on traditional Japanese tableware, but the rim adds an elegant touch that reminds you of European tableware. The pieces feature dishes tastefully.

# TRAVEL TUMBLER

TRAVEL TUMBLER is designed for people who lead a conscious and flexible lifestyle—for those who appreciate the subtle flavors of single origin coffee and tea, or like to drink mineral water at the right temperature for your body. Vacuum insulated, the tumbler has great heat and cold retention. The cap feels smooth on the mouth and is structurally designed to stop ice cubes and hot drinks from coming out vigorously so you can drink comfortably until the last sip.

\*Keep drinks hot and cold for 6 hours  
350ml: Hot above 65°C/149°F, cold below 8°C/46°F  
500ml: Hot above 69°C/156°F, cold below 7°C/45°F

[Stainless steel] 18-8 Stainless steel, Polypropylene, Silicone  
[Color type] 18-8 Stainless steel (powder coating), Polypropylene, Silicone

# PLAY TUMBLER

PLAY TUMBLER is designed for kids' play under the limitless sky. The straw-type spout feels comfortable on the mouth and is easy to sip from. You can also detach the straw inside to drink. The opening of the tumbler is wide so it is easy to put in drinks and ice cubes, and also clean. Vacuum insulated, it retains the temperature of cold drinks for a long time. It comes with a handle, and there is a slight curve between the lid and tumbler which allows small hands to grip easily. In nearby parks, playgrounds, or pathways, find fun anywhere with PLAY TUMBLER.

\*Keep drinks cold for 6 hours, below 7°C/45°F

[Body] 18-8 Stainless steel (powder coating)

[Lid, Spout] Polypropylene, Silicone

[Straw] Polyethylene
