Michael Mumper, Registrar (717) 364-2662**

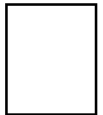

Artistry on Wheels (AoW) is an extension of the popular Meeting of the Marques (MOM) International Concours Motorshow.

In 1990, MoM was established as a motor show to display sports and sport touring vehicles. All makes were welcome, but the show focused on British made vehicles. Over the years the show venue limited participation from the public, making it mostly a show for the vehicle owners themselves.

In 2012, the Meeting of the Marques Motorshow was given a new look and venue, allowing it to become even more popular among sports car enthusiasts and the general public. The show was merged into the downtown Carlisle Harvest of the Arts Festival. This gave plenty of room to expand and allow the public to view these fine examples of automobile engineering. The Harvest of the Arts has 20,000+ folks who attend for the arts, crafts, and entertainment, then get to walk around our cars. On the other side of the “coin” our vehicle owners get to show and discuss with many, many people the highlights of their vehicles.

Today’s version of ‘The MoM’ represents a distinct evolution from the original all-British show held at the Allenberry Resort in nearby Boiling Springs for many years. For the last decade our goal has been to occupy a venue that offered activities for the entire family while also introducing the public to the folks who energize our hobby. Our 2026 version is truly now a International Concours Motorshow.
