Units/Container	<ul style="list-style-type: none">• 4800 pcs (20 skids) can be orders in single or multi-assortments if combined with other products to fill 40ft container

25kg Loose Coco Bales

- Urban Planter’s **25kg Loose Super-Washed Coco Coir Bales** yield over **220 litres** of ready-to-use premium growing medium.
- No hydration required—just open and use for pots, beds, or mixes.
- Clean, low-EC, and finely sieved for optimal aeration, moisture retention, and root health..

Parameter	Description
EC	<ul style="list-style-type: none">• Super washed process to maintain EC levels well below <350 ppm
pH	<ul style="list-style-type: none">• pH 5.5 - 6.5
Yield	<ul style="list-style-type: none">• Each Bale yields over 220 liters of loose washed coco upon opening.
White label options	<ul style="list-style-type: none">• Bales can be customized with stickers based on any art work
Units/Pallet	<ul style="list-style-type: none">• 28 bales per pallet
Units/Container	<ul style="list-style-type: none">• 560 pcs (20 skids) can be orders in single or multi-assortments if combined with other products to fill 40ft container

1000kg Jumbo Bales

- Urban Planter’s **1000kg Jumbo Coco Coir Bales** provide over **5,000 litres of premium, ready-to-use growing medium**.
- No hydration needed—perfect for large-scale greenhouses, nurseries, and soil mix operations.
- Low-EC, finely sieved, and optimized for superior aeration, moisture retention, and root development.

Parameter	Description
EC	<ul style="list-style-type: none">• Super washed process to maintain EC levels well below <350 ppm
pH	<ul style="list-style-type: none">• pH 5.5 - 6.5
Yield	<ul style="list-style-type: none">• Each Bale yields over 5000 litres of growing medium on opening.
White label options	<ul style="list-style-type: none">• Bales can be customized with stickers based on any art work
Units/Pallet	<ul style="list-style-type: none">• 01 Bale per pallet
Units/Container	<ul style="list-style-type: none">• 20 Bales per 40ft container and can be assorted with other product skids if needed.

Coco Coir Pots

- Urban Planter’s Coco Coir Pots are biodegradable, breathable containers made from natural coconut fibers—ideal for seed starting, transplants, and eco-friendly gardening.
- Available in a variety of sizes to suit everything from seedlings to mature plants.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• Most common sizes are 4 inch square or 4 inch round but can be customized as needed.
Material	<ul style="list-style-type: none">• Coco Fiber + Latex
MOQ	<ul style="list-style-type: none">• Varies depending on product assortment but usually 1 40ft container
White label options	<ul style="list-style-type: none">• Available in polybag multi-packs or cartons as per sizes
Units/Pallet	<ul style="list-style-type: none">• 750 pcs per carton• 16 Cartons per pallet = 12,000 pots/pallet
Units/Container	<ul style="list-style-type: none">• 240,000 pots per container (assuming single product for 40ft container)

Coco Coir Grow Poles

- Urban Planter's Coco Grow Poles are natural support stakes wrapped in coconut coir fiber—ideal for climbing plants like monstera, pothos, and philodendrons.
- They promote aerial root attachment and healthy vertical growth, available in multiple lengths and diameters.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• Lengths range from 12 in - 72in• Most common diameter is 1 inch, but can range from 0.75in - 1.5in
Material	<ul style="list-style-type: none">• Coco Fiber + Coir Twine + Wooden Stakes
MOQ	<ul style="list-style-type: none">• Varies depending on product assortment but usually 1 40ft container
White label options	<ul style="list-style-type: none">• Available in polybag multi-packs or cartons as per sizes
Units/Pallet	<ul style="list-style-type: none">• One carton will contain 6 x 36" Coco Grow Poles• 100 Carton per pallet = 600 grow poles/pallet
Units/Container	<ul style="list-style-type: none">• 12,000 Grow Poles per 40ft Container

Coco Coir Grow Mats

- Urban Planter’s Coco Grow Mats are made from natural coconut coir fibers, providing a clean, soil-free medium for seed starting, microgreens, and hydroponics.
- They retain moisture, promote healthy root growth, and are available in various sizes and sheet rolls.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• Available in sheets of 12in x 12in or 12in x 24 inches sold in multi packs• Also available in rolls of various dimensions and thickness
Material	<ul style="list-style-type: none">• Coco Fiber + Latex
MOQ	<ul style="list-style-type: none">• Varies depending on product assortment but usually 1 40ft container
White label options	<ul style="list-style-type: none">• Available in multipacks,
Units/Pallet	<ul style="list-style-type: none">• 1ft x 1ft = 100 mats per Carton/ 4000 mats per pallet• 1ft x 2ft = 50 mats per Carton/ 2000 mats per pallet
Units/Container	<ul style="list-style-type: none">• 1ft x 1ft = 80,000 mats per container• 1ft x 2ft = 40,000 mats per container

Coco Seed Starter Discs

- Urban Planter’s Seed Starters are compact, soil-free discs made from superwashed coir—perfect for germinating seeds with minimal mess.
- They expand when watered, offering excellent moisture retention and root support for strong, healthy seedlings.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• 25 mm (1 inch) – Ideal for small seeds and compact trays• 32 mm (1.25 inch) – Most commonly used across retail and horticulture• 38 mm (1.5 inch) – Preferred for larger seeds or longer root development• 50 mm (2 inch) – Used for transplant-ready seedlings or nursery applications
Material	<ul style="list-style-type: none">• Coco Fiber + Latex + Cotton Liners (if applicable)
MOQ	<ul style="list-style-type: none">• Varies based on customer requirement
White label options	<ul style="list-style-type: none">• These discs are often sold in packs of 50, 100, or 500 for gardeners, nurseries, and retailers
Units/Pallet	<ul style="list-style-type: none">• 3580 discs per carton• 214,800 per pallet

Coco Growing Cubes

- Urban Planter’s Coco Grow Cubes are made from superwashed, finely shredded coco coir encased in a breathable cotton mesh, ideal for seed starting and cuttings.
- Each cube features a pre-drilled hole for easy planting and promotes strong root development with optimal moisture and aeration.
- Perfect for plug trays, hydroponics, and transplanting—clean, eco-friendly, and ready to use.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• 1 inch x 1 inch x 1 inch (25 mm cube)<ul style="list-style-type: none">• – Ideal for seed starting and small cuttings in plug trays.• 1.5 inch x 1.5 inch x 1.5 inch (38 mm cube)<ul style="list-style-type: none">• – Common for hydroponics and early-stage propagation.• 2 inch x 2 inch x 2 inch (50 mm cube)<ul style="list-style-type: none">• – Suitable for larger seedlings and cuttings before transplanting.
Material	<ul style="list-style-type: none">• Coco Fiber + Cotton Liners
MOQ	<ul style="list-style-type: none">• Varies based on customer requirement
White label options	<ul style="list-style-type: none">• Grow Cubes are typically packed in cartons of ranging from 1000pcs - 2000pcs, depending on dimension and packaging requirements
Units/Pallet	<ul style="list-style-type: none">• For 1.5 inch cube ~1,300 pcs per carton• 78,000 cubes per pallet

Coir Erosion Mats

- Urban Planter’s Coco Coir Erosion Mats are durable, biodegradable mats made from woven coconut coir fiber, designed to stabilize soil and prevent erosion on slopes, riverbanks, and construction sites.
- They promote vegetation growth by retaining moisture while allowing water permeability, making them ideal for reforestation, landscaping, and hydroseeding projects.
- Available in various densities (400gsm to 900gsm) and customizable sizes to suit project-specific requirements.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• 400gsm Coir Mat – Lightweight and ideal for gentle slopes, landscaping, and temporary erosion control where quick degradation is desired.• 700gsm Coir Mat – Medium-duty mat suitable for moderate slopes, reforestation projects, and roadside stabilization.• 900gsm Coir Mat – Heavy-duty erosion control for steep banks, river embankments, and long-term soil stabilization in high-flow areas.
Material	<ul style="list-style-type: none">• 100% Natural Coco Coir Fiber
MOQ	<ul style="list-style-type: none">• 1 x 40ft Container
Units/Container	<ul style="list-style-type: none">• 400gsm - 400 rolls/ 40ft container• 700gsm - 250 rolls/40ft container• 900gsm - 110 rolls/40ft container

Coir Erosion Logs

- Urban Planter’s Coco Coir Erosion Logs are densely packed rolls of natural coconut coir fiber encased in durable mesh netting, designed to control soil erosion and manage stormwater runoff.
- Ideal for stabilizing slopes, stream banks, shorelines, and construction perimeters, they promote vegetation growth while filtering sediment and slowing water flow.
- Available in various diameters and lengths, these biodegradable logs offer an eco-friendly solution for long-term erosion control and site restoration.

Parameter	Description
Dimensions	<ul style="list-style-type: none">• 3 meters long x 30 inches wide• Plant hole diameter and spacing can be customized
Material	<ul style="list-style-type: none">• Coconut Fiber Filling• Outer Netting (Mesh)<ul style="list-style-type: none">◦ Typically made from synthetic polypropylene mesh or biodegradable coir netting◦ Polypropylene (50-100 mm mesh): Durable for high-flow areas◦ Coir Mesh: Fully biodegradable, ideal for environmentally sensitive zones
MOQ	<ul style="list-style-type: none">• 1 x 40ft Container
Units/Container	<ul style="list-style-type: none">• 400 logs per 40ft container
