

Clay Sculpture Finish At Home Instructions

1

Once you have your sculpture at home...
Leave it lightly covered with a plastic bag (Like a grocery bag)
Check it every other day. It will take about 2 weeks to dry.
If at anytime during this process you see that your piece has developed cracks, it is drying too fast.

The FIX:

Take a small paint brush dipped in water and smooth out the crack and cover your piece tightly with the plastic bag.

Your masterpiece should be dry when no longer cool to the touch and room temperature.

2

To Paint:

Use Acrylic Paint;

Found at Walmart, Target, and Craft Stores.
Brands include: Folkart, Craft Smart, Decoart & Apple Barrel
