

Hello,

I'm Vittoria, and I'd love to welcome you to First State Derm Medi Spa—a place where personalized skincare, advanced treatments, and genuine care come together to help you look and feel your best.

I grew up in the Pike Creek area and studied at St. Mark's High School. After graduating, I completed my aesthetician training at the Aveda Institute in Birmingham, Alabama.

After returning to my hometown, I spent seven years working in medical aesthetics at Premier Dermatology before opening my own practice to care for the community I love. I specialize in treating acne, rosacea, pigmentation concerns, aging skin, and tattoo removal. I offer transformative services including HydraFacial, VI Peels, and medical-grade laser treatments—each designed to deliver noticeable, confidence-boosting results.

I'm also proud to work alongside the medical providers at First State Dermatology, allowing us to offer comprehensive care for both dermatological conditions and cosmetic concerns. Together, we create treatment plans that are safe, effective, and tailored specifically to your skin.

What truly sets us apart is our approach. We welcome you into a calming, supportive environment paired with the highest level of clinical expertise. Whether you're seeking a deep cleanse, a brighter complexion, corrective solutions, or long-term skin health, I'm here to guide you every step of the way—and to ensure you feel supported, comfortable, and excited about your results.

If you've been thinking about improving your skin, now is the perfect time to begin.

Come visit us, explore our treatments, and discover just how good your skin can look and feel.

We can't wait to care for you.

Warmly,

Vittoria Mortarotti

Licensed Aesthetician
