

Signal App Guidelines

- 1) This app is to be used for Space Coast H.O.G. ride information only.
- 2) No personal texting. ONLY send a one-on-one text direct to a person, NOT the group. **Ask for assistance if you don't know how to one-on-one text.**
- 3) No photos or videos.
- 4) Space Coast H.O.G. flyers generated by leadership are permitted.
- 5) While you can access the app at any time, please NO texting before 8 am and after 9 pm. **Be considerate to those that don't silence their phones.**
- 6) If you are looking for ride information, it is posted on...
 - a. Space Coast H.O.G. Website (<https://spacecoast-hog.com/>)
 - b. Space Coast H.O.G. Facebook ([Space Coast H.O.G. Ride Info #2860](#))
 - c. Distributed in the weekly eBlast
- 7) As a common guideline, if the text is not true, kind or necessary... please refrain from sending it. This app is not a venue to air issues with other members or chapter leadership. Please use other media or ways to address such issues. Try one-on-one contact or reach out to Space Coast H.O.G. Leadership at spacecoasth.o.g.2860@gmail.com. Chapter officers will do their best to resolve issues within our group. Your concern will not go unanswered.
- 8) If you have any suggestions or improvements for Space Coast H.O.G., please do not use this app. Please bring those to the Director directly and/or to our monthly Chapter meetings held on the 2nd Saturday of each month.

This app is a proven, wonderful tool for communicating our rides and up-to-date information and changes (e.g., impromptu rides, cancellations, KSU time, route, pick up location). So please, as individuals, adhere to the guidelines defined. These guidelines are set to respect everyone's time and privacy. We greatly appreciate everyone complying so we can continue to keep Signal as a method for communicating ride information.
