

# THE UNITED MONARCHY OF GIEZWA

## CITIZENS IN WAITING

PUBLIC PARTICIPATION • REGISTRY • MEMBERSHIP • RESPONSIBILITY • COMMUNITY • CONTINUITY

2026 PUBLIC PARTICIPATION & INTERNAL TEAM REFERENCE EDITION

### FOUNDING ERA PUBLIC PARTICIPATION SERIES

**CURRENT PUBLIC STATUS: CITIZENS IN WAITING IS AN INTERNAL UMG REGISTRY, MEMBERSHIP AND PARTICIPATION STATUS. IT IS NOT RECOGNIZED SOVEREIGN-STATE CITIZENSHIP, NATIONALITY, IMMIGRATION STATUS OR A TRAVEL DOCUMENT.**

## PUBLIC PARTICIPATION &amp; REGISTRY REFERENCE

**00. PUBLIC PURPOSE, STATUS & READING NOTICE**

This volume explains the current Citizens in Waiting framework of The United Monarchy of Giezwa. It is intended for the public, applicants, participants, UMG administrators, program teams, advisors and future generations who need a clear record of what the status means, how participation may be administered, what rights and responsibilities exist inside UMG, and what the status does not create under external law.

Citizens in Waiting is presently an internal UMG participation and registry framework. It provides a way for people who support UMG's cultural, educational, humanitarian, institutional and long-term development mission to register, receive approved information, participate in eligible programs and maintain a documented organizational relationship with UMG.

**PUBLIC RULE: PARTICIPATION INSIDE UMG MUST NOT BE PRESENTED AS NATIONALITY, IMMIGRATION STATUS, DIPLOMATIC STATUS, GOVERNMENT-ISSUED IDENTIFICATION OR A RECOGNIZED PASSPORT/TRAVEL STATUS.**

**01. CURRENT PUBLIC STATUS AT A GLANCE**

| AREA                                        | CURRENT PUBLIC-SAFE STATUS                                                                                    |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------------|
| Citizens in Waiting                         | Established public participation / registry policy within UMG.                                                |
| Recognized state citizenship or nationality | Not created by the current framework.                                                                         |
| Immigration / residency / visa rights       | Not created by Citizens in Waiting status.                                                                    |
| Government-issued ID or passport            | Not created. Any UMG credential is internal unless separately recognized by a competent authority.            |
| Participation in approved UMG programs      | Available according to the rules of each program and the participant's status.                                |
| Future external rights                      | Possible only if later created by applicable law and a formal external agreement; not promised or guaranteed. |

## 02. WHAT CITIZENS IN WAITING MEANS

Citizens in Waiting is best understood as a structured relationship between an individual and UMG during the Founding Era. The word 'Citizens' is part of the internal name of the framework, while the legal meaning of the status remains membership, registry and participation within UMG.

The framework creates continuity. Instead of treating supporters, program participants, volunteers, applicants and future community members as disconnected contacts, UMG can maintain an organized public-participation system with clear rules, records, privacy standards and expectations.

## 03. WHY THE FRAMEWORK EXISTS

- To provide a lawful path for people to express support for UMG's cultural, educational, humanitarian, institutional and development mission.
- To create an organized registry rather than an informal list of supporters.
- To give participants access to approved information, events, educational resources, community programs and other opportunities according to program rules.
- To preserve continuity as UMG develops new institutions, public programs and international relationships.
- To establish clear public boundaries so internal membership is not misrepresented as external governmental status.

## 04. FOUNDING ERA ROLE

During the Founding Era, Citizens in Waiting can serve as the public participation bridge between UMG's present organizational structure and whatever lawful programs, institutions or international arrangements may be established later. The framework should evolve through dated policies and public notices rather than through silent changes.

## 05. ELIGIBILITY & REGISTRATION

Eligibility should be administered according to UMG's current public policy and any program-specific requirements. Applicants may be asked to provide accurate identifying and contact information reasonably necessary for administration, safety, compliance and program eligibility.

- Age requirements may be established for particular programs or forms of participation.
- Parental or guardian consent may be required for minors where appropriate.
- Sensitive roles may require additional review, verification or background screening where lawful.
- Participation fees may be established where lawful and clearly disclosed.
- Individual programs may impose additional qualifications that are reasonably related to the activity.
- Acceptance remains discretionary within UMG's lawful organizational policies.

## 06. RECOMMENDED PUBLIC APPLICATION FLOW

| AREA                      | CURRENT PUBLIC-SAFE STATUS                                                                                              |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------|
| 1. Read                   | Review the Citizens in Waiting public notice, rights, responsibilities, privacy terms and program rules.                |
| 2. Apply                  | Submit the registration form and only the information reasonably required for the application.                          |
| 3. Review                 | UMG checks completeness, program eligibility, safety or compliance requirements and any additional criteria that apply. |
| 4. Additional information | If needed, the applicant may be asked for consent, verification or program-specific materials.                          |
| 5. Decision               | Approved applicants receive a registry confirmation or other internal participation notice.                             |
| 6. Participate            | Access approved information, programs, events or opportunities according to the participant's current status.           |

**WEBSITE RULE: IF THE APPLICATION SYSTEM IS NOT YET LIVE, DISPLAY 'REGISTRATION OPENING SOON' OR 'APPLICATION PROCESS UNDER DEVELOPMENT' RATHER THAN PRESENTING A NON-FUNCTIONAL APPLY BUTTON AS ACTIVE.**

## 07. ACCEPTANCE, DENIAL & DISCRETIONARY STATUS

Citizens in Waiting is an internal UMG status, and acceptance may be declined or later revoked where UMG has a lawful organizational reason to do so. The public policy identifies fraud, safety concerns, unlawful conduct, misuse of UMG credentials, harassment, impersonation and material policy violations as examples that may affect eligibility or continued participation.

Decisions should be documented internally, administered consistently and limited to UMG participation. A denial, suspension or termination of Citizens in Waiting status does not change a person's nationality, immigration status, public benefits, civil rights or other legal status under external law.

## 08. EQUALITY, FAIR ADMINISTRATION & CORRECTION

UMG's public governing framework supports equal dignity, fair opportunity and consistent internal administration. Where appropriate, participants should have a reasonable way to correct inaccurate registry information or request internal review of an administrative error. Internal review does not replace rights or remedies available under applicable external law.

## 09. MINORS & FAMILY PARTICIPATION

Programs involving minors require additional care. UMG may establish age thresholds, parental or guardian consent, restricted communication rules, limited public visibility and other protections appropriate to the program. Participation should never require unnecessary public disclosure of a child's school, address, medical information, custody information, biometric data or other sensitive records.

## 10. RIGHTS WITHIN UMG

Citizens in Waiting may receive internal rights and opportunities according to the current policy and the rules of each program. These are organizational rights within UMG, not constitutional or governmental rights imposed on outside persons or authorities.

- Access to approved UMG information.
- Access to eligible events, registries, educational materials, community programs or participation opportunities according to applicable rules.
- Fair administration of internal policies.
- Reasonable correction of inaccurate registry information.
- Privacy protections and restricted access to sensitive information consistent with UMG policy and applicable law.
- Clear notice of the actual status and limitations of any public-facing UMG credential.

## 11. WHAT THESE RIGHTS DO NOT CREATE

- A right to enter, reside in or immigrate to any country.
- A recognized nationality or sovereign-state citizenship.
- Diplomatic status, immunity or governmental office.
- A public-law entitlement to UMG property, money, employment, benefits or future development rights.
- A government-issued identity document, passport or visa.
- Authority over other people simply because a participant is registered with UMG.

## 12. RESPONSIBILITIES

Participation also carries responsibilities. The credibility of the registry depends on participants understanding that the status must be used accurately and lawfully.

- Comply with applicable law and UMG policies.
- Use UMG names, seals, credentials, documents and titles only as authorized.
- Do not claim sovereign nationality, diplomatic immunity, governmental office, immigration benefit, police authority or travel-document status based on Citizens in Waiting membership.
- Do not use UMG documents or branding for impersonation, fraud, false affiliation or unlawful purposes.
- Respect privacy, minors, confidential records, intellectual property, safety procedures and the rights of others.
- Keep required registration information reasonably accurate where program administration depends upon it.
- Follow additional conduct, safety or participation rules applicable to the specific program or event.

## 13. PUBLIC CONDUCT STANDARD

**REPRESENT THE STATUS ACCURATELY. RESPECT THE RIGHTS OF OTHERS. PROTECT THE RECORD.  
DO NOT TURN AN INTERNAL UMG PARTICIPATION STATUS INTO A CLAIM THE LAW DOES NOT  
RECOGNIZE.**

## 14. CREDENTIALS & IDENTIFICATION

UMG may issue registry confirmations, membership cards, ceremonial certificates or digital credentials for internal use. Any credential intended for public circulation should plainly identify its internal membership or participation purpose.

**NOT A GOVERNMENT-ISSUED ID • NOT PROOF OF NATIONALITY • NOT AN IMMIGRATION DOCUMENT • NOT A PASSPORT OR TRAVEL DOCUMENT**

Historic or Founding Era passport-style materials may remain preserved in archives, but the current public policy does not approve them for use or presentation as recognized passports. Public-facing credentials should be designed to prevent rather than encourage confusion.

## 15. DIGITAL CREDENTIALS & VERIFICATION

If UMG uses digital credentials, QR codes, wallet passes, online registry confirmations or similar technology, the public description should remain the same: the technology changes the format of the credential, not its legal status. Verification systems should confirm only what UMG is actually authorized to confirm.

## 16. MISUSE OF CREDENTIALS

False alteration, duplication, sale, impersonation, fraudulent presentation or use of a UMG credential to obtain an external legal benefit may result in internal suspension or termination and may also be subject to applicable law.

## 17. PRIVACY & RECORDS

Citizens in Waiting requires a responsible registry system. Personal data should be collected only for legitimate UMG purposes, stored with reasonable safeguards, restricted according to role and retained or deleted according to applicable law and UMG records policy.

- Collect only information reasonably necessary for administration, safety, compliance or program eligibility.
- Limit staff access to people who actually need the information for an authorized function.
- Do not publish sensitive lineage, biometric, identity-document, financial, background-review or minor-child information in the public document library.
- Separate public participation information from restricted administrative records.
- Use dated records and version control when policies or participant status changes.
- Protect information shared by minors and families with additional care.

## 18. PUBLIC VS. RESTRICTED RECORDS

The public may be told that a participation framework exists without being given access to private applicant files. Transparency does not require publication of addresses, identity documents, background information, private communications, payment data or other restricted records.

## 19. RECORD ACCURACY

Registry information should be accurate enough to support administration. Where a participant identifies an error, UMG should provide a reasonable method to submit a correction request consistent with security, record-integrity and retention requirements.

## 20. PARTICIPATION OPPORTUNITIES

Citizens in Waiting may interact with UMG Public Administration, program offices, educational or cultural initiatives, registries, events and public-information systems. Access depends upon the rules and actual status of the program.

- Educational and historical-learning materials.
- Cultural, ceremonial or heritage programming where open to participants.
- Community and humanitarian initiatives.
- Public events and approved volunteer opportunities.
- Entrepreneurship, mentorship, development or technology programs when established.
- Future lawful programs created by UMG or participating partner organizations.

## 21. PROGRAM-SPECIFIC RULES

Registration does not automatically make every participant eligible for every activity. A youth program, volunteer position, restricted archive, professional training initiative, contractor opportunity or sensitive institutional role may have separate requirements.

## 22. NO AUTOMATIC EMPLOYMENT OR FINANCIAL BENEFIT

Citizens in Waiting status does not itself create employment, wages, investment rights, ownership rights, housing rights, grants, scholarships, contracts, land rights or entitlement to financial assistance. Any such opportunity must arise from the separate program, agreement, employment relationship, award process or legal instrument that actually creates it.

## 23. CITIZENS IN WAITING VS. LEGAL CITIZENSHIP

This distinction should remain visible across the website, applications, credentials and public books. Citizens in Waiting is an internal UMG participation classification. Legal citizenship or nationality granted by a recognized state is determined by that state's law and competent authorities.

| AREA                       | CURRENT PUBLIC-SAFE STATUS                                                                          |
|----------------------------|-----------------------------------------------------------------------------------------------------|
| Citizens in Waiting        | Internal UMG registry, membership and participation status.                                         |
| Nationality                | A legal relationship to a recognized state under applicable nationality law.                        |
| Immigration status         | A legal permission or classification created under the immigration law of a competent jurisdiction. |
| Residency right            | A right or permission to live in a place created by applicable law or agreement.                    |
| Diplomatic status          | A specialized legal status requiring competent governmental and international processes.            |
| Passport / travel document | A recognized travel credential issued or accepted through competent governmental processes.         |

## 24. LANGUAGE STANDARD

**USE 'CITIZENS IN WAITING' AS THE OFFICIAL INTERNAL NAME. USE 'PARTICIPANT,' 'REGISTRANT' OR 'MEMBER' WHEN PLAIN LANGUAGE HELPS. DO NOT SHORTEN THE STATUS TO 'CITIZEN' IN A WAY THAT CREATES PUBLIC CONFUSION.**

## 25. FUTURE DEVELOPMENT

The current policy leaves room for future lawful development without promising a result that does not yet exist. If UMG later enters a host-country arrangement or obtains a status that lawfully permits additional forms of residency, membership, nationality or civic participation, those rights would arise only from the applicable law and the formal agreement in effect at that time.

Citizens in Waiting should therefore be preserved as a Founding Era participation record, while any future externally recognized status should be documented separately according to the instrument that actually creates it.

**NO GUARANTEE: THE CURRENT CITIZENS IN WAITING POLICY DOES NOT PROMISE FUTURE CITIZENSHIP, NATIONALITY, RESIDENCY, IMMIGRATION STATUS OR OTHER EXTERNAL LEGAL RIGHTS.**

## 26. RELATIONSHIP TO INTERNATIONAL DEVELOPMENT

UMG may continue international development, legal review and partnership discussions, but Citizens in Waiting status should not be presented as evidence that any current agreement grants nationality, residency, travel rights or diplomatic status unless a competent external instrument expressly creates those rights.

## 27. IF FUTURE RIGHTS ARE CREATED

A later public edition should identify the country or authority, the legal instrument, effective date, eligibility rules, responsible agency, application procedure and exact legal effect. The internal Citizens in Waiting record may remain part of UMG history without being silently rewritten into something it was not.

## 28. SUSPENSION, WITHDRAWAL & TERMINATION

Participants may withdraw from Citizens in Waiting subject to reasonable archival, administrative and legal-retention requirements. UMG may suspend or terminate internal status for material policy violations, fraud, safety risks or unlawful conduct.

- Withdrawal should stop future participation to the extent requested while preserving records that must lawfully or reasonably be retained.
- Suspension may temporarily restrict access while a safety, conduct or administrative issue is reviewed.
- Termination ends the internal participation status according to UMG policy.
- Any action affects only the person's relationship with UMG unless a separate external legal instrument provides otherwise.
- Records should identify the effective date and reason category while protecting unnecessary private details.

## 29. POLICY ENFORCEMENT & PROPORTIONALITY

Internal enforcement should be proportionate to the issue and documented consistently. Routine administrative mistakes should not be treated the same as fraud, impersonation, threats or serious safety violations.

## 30. EXTERNAL RIGHTS REMAIN EXTERNAL

Internal suspension or termination cannot revoke a person's nationality, immigration status, government benefits, civil rights, property rights or other legal status that arises independently under external law.

## 31. INTERNAL ADMINISTRATION & TEAM WORKFLOW

A clear internal workflow makes the public system more credible and reduces inconsistent decisions.

| AREA        | CURRENT PUBLIC-SAFE STATUS                                                                                                                                         |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Receive     | Accept the application, correction request, withdrawal or program inquiry.                                                                                         |
| Classify    | Determine whether the matter is ordinary registration, minor participation, a sensitive role, a program-specific application, a conduct issue or a privacy matter. |
| Verify      | Check completeness and only the information reasonably necessary for the decision.                                                                                 |
| Review      | Apply the current policy and any program-specific requirements consistently.                                                                                       |
| Decide      | Approve, request more information, decline, suspend, correct or terminate within the authority actually assigned.                                                  |
| Communicate | Give the participant an accurate status message without overstating legal effect.                                                                                  |
| Protect     | Restrict sensitive information and credentials according to role.                                                                                                  |
| Preserve    | Maintain the date, decision, version and required supporting records.                                                                                              |

## 32. RECOMMENDED INTERNAL REGISTERS

- Application / registration register.
- Active participant register.
- Credential issuance register.
- Minor-consent or special-program record where applicable.
- Correction / administrative review log.
- Suspension / withdrawal / termination log.
- Public policy edition and change log.

### 33. WEBSITE STRUCTURE

| AREA                        | CURRENT PUBLIC-SAFE STATUS                                                                           |
|-----------------------------|------------------------------------------------------------------------------------------------------|
| Overview                    | What Citizens in Waiting is, why it exists and the public status notice.                             |
| Eligibility & Registration  | Basic eligibility, applicant information, minors, sensitive roles and program-specific requirements. |
| How to Apply                | Current application process or a clear 'Registration Opening Soon' notice.                           |
| Rights & Responsibilities   | Internal participation rights, conduct expectations and public boundaries.                           |
| Policies & Standards        | Privacy, credentials, misuse, withdrawal, suspension, termination and records.                       |
| FAQ                         | Plain-language answers to common legal-status and participation questions.                           |
| Public Participation Policy | Link to the controlling public policy / full book.                                                   |

### 34. PUBLIC Q&A

**Is Citizens in Waiting legal citizenship?** No. It is an internal UMG registry, membership and participation status.

**Does it give me a passport?** No. Any UMG card or digital credential is internal unless separately recognized by a competent external authority.

**Can it give me immigration or residency rights?** Not under the current policy. Any future right of that kind must arise from applicable law and a formal external agreement.

**Can children register?** UMG may establish age rules and parental or guardian consent requirements for minors.

**Can my status be suspended or terminated?** Yes, for reasons allowed by UMG policy, including material violations, fraud, safety risks or unlawful conduct.

**Does membership guarantee a job, grant, land or payment?** No. Those opportunities require separate programs, agreements or legal instruments.

## 35. MODEL PUBLIC STATEMENTS

### WEBSITE INTRODUCTION

Citizens in Waiting is the internal public participation, registry and membership framework of The United Monarchy of Giezwa. It allows eligible participants to register, receive approved information, take part in qualifying programs and maintain a documented relationship with UMG during the Founding Era. It is not recognized sovereign-state citizenship, nationality, immigration status, diplomatic status, government-issued identification or a travel document.

### CREDENTIAL STATEMENT

This credential confirms an internal UMG participation or registry status only. It is not government-issued identification, proof of nationality, an immigration credential, a visa, a passport or a recognized travel document.

### FUTURE-DEVELOPMENT STATEMENT

If future applicable law or a formal external agreement creates additional residency, membership, nationality or civic-participation rights, those rights will be described separately according to the actual instrument that establishes them. The current Citizens in Waiting policy does not promise or guarantee that result.

## 36. SOURCE & RECORD NOTE

This 2026 volume is a specialized public and internal-team companion to the current UMG Citizens in Waiting Public Participation Policy, Government Structure, Public Legal Guides and related public governing materials. It preserves the current legal-status boundary while expanding the public explanation, administrative workflow, website structure, credential standards, privacy principles and future-development framework.

- UMG Citizens in Waiting - Public Participation Policy - 2026.
- UMG Government Structure - 2026 Public Institutional Guide.
- UMG Public Legal Guides - 2026.
- UMG Governing Documents / Public Governing Edition - 2026.
- Related UMG Ministries, Institutions, Development and International Development public references where applicable.

## 37. FINAL PUBLIC NOTICE

The Citizens in Waiting framework of The United Monarchy of Giezwa is an internal UMG registry, membership and public-participation system. It does not constitute citizenship or nationality granted by a recognized sovereign state and does not independently create immigration status, residency rights, visa rights, diplomatic status, diplomatic immunity, public governmental office, voting rights under public law, police or military authority, government-issued identification, passport status or recognized travel-document rights.

UMG may establish lawful internal eligibility requirements, age rules, parental-consent requirements, program-specific qualifications, reasonable administrative procedures, privacy standards, conduct rules, participation fees where lawful, background review for sensitive roles and other internal requirements consistent with applicable law. Acceptance, suspension, withdrawal or termination affects only UMG participation unless a separate lawful external instrument provides otherwise.

Any UMG-issued membership card, registry confirmation, ceremonial certificate, digital credential, QR code, wallet pass or similar item is an internal participation credential unless a competent external authority separately grants it another legal effect. It should not be presented as government-issued ID, proof of nationality, immigration status, a visa, a passport or a travel document.

Personal information collected for Citizens in Waiting should be limited to legitimate administrative, safety, compliance or program purposes, protected with reasonable safeguards, restricted according to role and handled consistently with applicable privacy and records requirements. Sensitive identity, lineage, biometric, financial, background-review and minor-child information should not be published merely because it exists in the registry.

If UMG later enters a lawful host-country arrangement or another competent external process creates additional residency, membership, nationality or civic-participation rights, those rights will arise only from the applicable law and formal agreement in effect at that time. This publication does not promise or guarantee future external legal status.

Public availability of UMG-created policies, books, forms, credentials, seals, crests, names, graphics or other materials does not transfer intellectual-property ownership or authorize impersonation, fraudulent use, false attribution or alteration of an official UMG record while presenting the altered version as authentic.

### FINAL PARTICIPATION STANDARD

**REGISTER ACCURATELY. PARTICIPATE RESPONSIBLY. PROTECT PRIVACY. USE CREDENTIALS  
HONESTLY. DISTINGUISH INTERNAL STATUS FROM EXTERNAL LAW. PRESERVE THE RECORD. BUILD  
FOR GENERATIONS.**

THE UNITED MONARCHY OF GIEZWA • CITIZENS IN WAITING • 2026 PUBLIC PARTICIPATION & INTERNAL TEAM REFERENCE  
EDITION
