Real Eyes Offers AV Installations!

EXTRON CONTROL

NOW IS THE TIME to make those long overdo but necessary equipment upgrades

in home or workplace. Is your conference or training room looking for like a war room that lost the war? Do you get headaches from having to squint while reviewing financial number on Excel sheets on your 42" monitor Stop the squinting, install a larger 75" or 80" monitor so you can see all financial information! NOW IS THE TIME!

As a trusted audiovisual integrator, Real Eyes will help make your installation SIMPLE! With every new project, we will take the time to guide you through the installation process to ensure you are getting exactly what is needed to accomplish your needs for your home or work place. How....?

Site Survey. We will come to your home or place of business, meet with you one-on-one and thoroughly examine the space and understand the unique design of the room.

PreScope Checklist. Before any work or pricing can begin, we will detail all details of an installation. Then we examine with details, review the details and test the details. This extra step at the beginning of the process helps ensure that we get it right from the beginning and avoiding costly mistakes.

Next, **Scope of Work.** We need to finalize the right methodology and equipment needed to complete your installation job correctly.

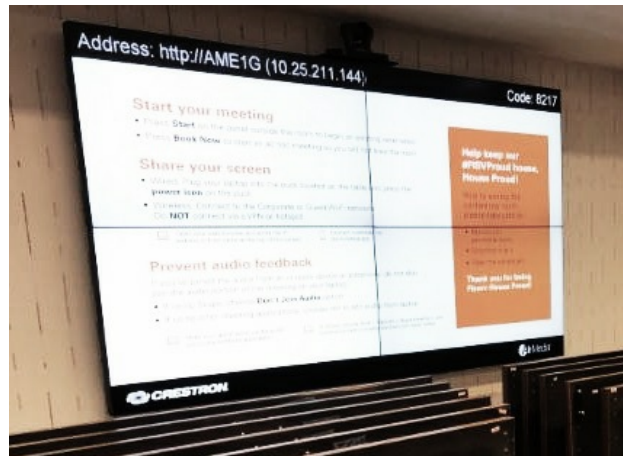

Quote/Pricing. Once we have examined, reviewed, revised and tested the methodology, now we are ready to price our the right equipment and cost of installing it.

Commissioning. Before the project is complete, we complete a document commission check list to again ensure we installed, setup and have the equipment working the way you want it!

NOW IS THE TIME to call all us today and let one of our professional installation technicians work with you on your upcoming installation.
