

AI Move of the Day · Brief 1

Chapter Summary Quest

Your mission: use AI to turn one long school chapter into a clean 1-page summary. Then catch mistakes, fix the output, and write what you actually understood.

Start the quest

Try the mini-boss first

YOUR CURRENT LEVEL

0 XP

Level 1: Tab Opener

Open AI tool

Choose chapter

Use the prompt

Catch AI mistakes

Write your own 3 points

Finish the mission

Before we play: the rule

AI is not your homework servant. AI is your study partner. Use AI to understand, then write it yourself.

Copy-pasting is the boring ending. This quest is better than that.

1 Open your AI arena

Step 1: Open a new tab with Claude or ChatGPT or Gemini or any other AI tool.

Pick one AI tool your school or parent allows. Do not waste 10 minutes choosing the “perfect” one. Today’s skill is not tool-shopping. Today’s skill is asking clearly.

THOUGHT BULB

The tool matters less than the question. A weak prompt gives a weak answer. A clear prompt gives you something useful.

☐ I opened Claude, ChatGPT, Gemini, or another AI tool.

2 Pick your chapter monster

Choose one real chapter from your schoolwork. Not a random internet topic.

Good choices:

History

Science

Geography

Economics

English

Write your chapter name here:

Example: Life Processes

QUEST RULE

If the chapter is from your real syllabus, you get XP. If it is random, the monster escapes.

☐

I chose a real chapter I actually need to study.

3 Use the power prompt

This is the move. Copy it, paste it, and replace the chapter name.

Most people type: “**Summarise this chapter.**” That works, but only a little. We can do better.

COPY-PASTE PROMPT

I am a Grade 9 or Grade 10 student. I am studying the chapter “[write your chapter name here]”. Make a 1-page summary in simple English. Use 10 bullet points. Include the key terms I must remember. Do not make up facts. If you are unsure about anything, say “check your textbook”.

Copy prompt

CAUTION BOARD

Do not trust the first answer blindly. AI can sound confident and still be wrong. That is called a hallucination: when AI makes something up and sounds completely sure of it.

☐ I pasted the prompt into AI and got a summary.

4 **Mini-boss: Spot the Bluff**

AI made three statements. One is suspicious. Which one would you check first?

MINI-BOSS ROUND

AI wrote this after summarising a Science chapter:

A. Plants use sunlight during photosynthesis.

B. Photosynthesis happens only at night.

C. Chlorophyll helps plants absorb light.

THE TRANSFERABLE RULE

When AI gives you a fact that sounds neat and simple, check it. AI loves neatness. Textbooks love accuracy.

☐ I checked the AI summary against my textbook or class notes.

5 Upgrade the AI answer

Now make AI rewrite using only the points you checked.

You are not asking AI to guess anymore. You are giving it corrected material. That is a much stronger move.

CLEANER SUMMARY PROMPT

I checked your summary against my textbook. Rewrite it more clearly using only these corrected points:

[paste your corrected points here]

Keep it short. Use simple English. Make it fit on one page.

Copy prompt

Weak move

“AI said it, so I copied it.”

Strong move

“AI said it. I checked it. Then I made it clearer.”

☐

I made AI rewrite the checked version, not the guessed version.

6 The final move: your own 3 points

This is where the learning actually sticks.

Close the AI tab for 3 minutes. Open your notebook. Write three things you understood. Messy is allowed. Copy-paste is not.

Thing I understood #1

Write this in your own words.

Thing I understood #2

Still your words. Not AI's.

Thing I understood #3

One more. You're nearly done.

WIN CONDITION

If you can explain three points in your own words, you did not just use AI. You learned something with AI.

☐

I wrote three points in my own words.

7 **Optional side quest: make your AI Move card**

Turn your process into a simple reminder card.

Use Canva, Google Slides, PowerPoint, or paper. Keep it clean. No robot picture needed.

CARD LAYOUT

Title: AI Move of the Day

Move: Use AI to make a 1-page summary of any chapter.

Tool: Claude / ChatGPT / Gemini

Final action: Check the summary. Write three things yourself.

☐ I created, sketched, or planned my AI Move card.

Mission complete?

Check these before you leave. No one collects this. Honour code. You are the only audience.

☐ I chose a real school chapter.

☐ I used AI to make a summary, not to finish my homework.

☐ I checked the AI answer against my textbook or notes.

☐ I wrote three things in my own words.

Your final sentence

Copy this into your notebook and fill the blanks:

Today I used AI to understand _____, but the three things I understood myself were _____, _____, and _____.
