

MS-14 • Make Stuff • AI Move of the Day

30-Second Song Quest

You can make a real song in about a minute
— about anything you love. The secret is not
“music talent.” It is describing style, mood,
and topic clearly.

Start the song

Build my Suno line

Level 1: Humming Beginner

Choose something you love

Build a style line

Open Suno safely

Generate the song

Choose your best version

Play it for one person

Today's move

We are using Suno to make a short song. Suno works best when you give it a clean style description: genre, topic, mood, and language.

Keep the topic positive. No private details. No full names, addresses, phone numbers, school IDs, or anything personal.

1 **Pick one thing you love**

Not “something impressive.” Something you actually like.

Your song can be about Mumbai street food, cricket, rainy days, your dog, chess, your favourite subject, a book character, your neighbourhood, or even Maggi at 11 pm. Normal things make better songs than fake fancy things.

Food

Sports

City

Friends

Books

School life

Pets

Thing I love

Example: Mumbai street food

THOUGHT BULB

AI music is still your creative choice. You decide the topic. You decide the feeling. Suno just turns that direction into a track.

☐ I picked one positive topic I actually like.

2 **Build your Suno style line**

Suno does not need a huge essay. It needs a sharp music direction.

Fill these fields. The page will build your line.

Genre

Upbeat pop

Mood

Fun and catchy

Lyrics language

English lyrics

YOUR SUNO LINE

A 30-second upbeat pop song about Mumbai street food, fun and catchy mood, English lyrics.

COPY-PASTE SHAPE

A 30-second [genre] song about [thing you love], [mood] mood, [language] lyrics.

Copy my Suno line

EXAMPLE

A 30-second upbeat pop song about Mumbai street food, fun and catchy mood, English-Hindi mix lyrics.

☐

I built a clear style line with topic, genre, mood, and language.

3 **Open Suno safely**

Suno may need a free account. If you need help, ask a grown-up.

Open Suno in a new tab. If account setup is needed, use a parent-approved or school-approved account. Do not enter personal details into the song prompt.

CAUTION BOARD

Keep your prompt safe: no full names, phone numbers, home address, school ID, private family details, or anything you would not want shown on a classroom screen.

SAFE TOPIC TEST

“My dog Bruno who lives at Flat 402, Building X” is too personal. “A funny song about a lazy dog who loves biscuits” is fine.

☐

I opened Suno safely, with grown-up help if needed.

4

Generate the track

Paste your style line. Then let Suno make the song.

Paste your line into Suno. Generate the track. You may get more than one version. Do not judge in the first three seconds. Listen once properly.

What the result feels like

A short AI-made track starts playing. It may be weird. It may be catchy. Either way, you made something from a direction you wrote.

THOUGHT BULB

The creative skill is not pressing “generate.” The creative skill is describing the song clearly enough that the AI has a direction to follow.

☐

I generated a 30-second song in Suno.

5

Choose the best version

Not perfect. Best. There is a difference.

Listen to the versions Suno made. Pick the one with the best mood, chorus, beat, or idea. Then write why you picked it.

Listen for the hook

Is there one line or tune that sticks in your head?

Listen for the mood

Does the song feel like the thing you asked for?

Listen for weirdness

Does any lyric sound wrong, awkward, or too random?

Listen for your choice

Would you play this for one person without explaining for five minutes?

I picked this version because...

Example: The beat matched the street-food topic and the chorus was catchy.

☐

I chose the best version and wrote why I chose it.

6 **Optional: make your AI Move card**

This is the small reminder of the process you followed.

CARD COPY

Title: AI Move of the Day

Move: Make a 30-second song about anything you love.

Tool: Suno

Style line: A 30-second [genre] song about [thing], [mood] mood, [language] lyrics.

Closer: Play it for one person today.

☐

I made, sketched, or saved the AI Move card.

Final 5-minute move

Play your song for one person today. A friend, sibling, parent, cousin, teacher — your call. Do not explain it too much first. Just press play.

☐ My song topic is positive and safe.

☐ I did not include personal details in the prompt.

☐ I played, or will play, the song for one person today.

YOU MADE SOMETHING

Save the style line. Next time, change just one thing — genre, mood, language, or topic. That is how you learn what your words make the AI do.
