School Anthem Maker

Every team has an anthem. Make your school's in 5 minutes: Suno makes the tune, Canva makes the lyric card, and you decide the value it celebrates.

Two tools. One artefact.

This move combines two AI tools toward one finished thing: a short anthem plus a lyric card. Suno gives you the sound. Canva gives you the visual card.

Keep it positive. Use a general school value like courage, kindness, teamwork, curiosity, or resilience. No personal details, no real student names, no private school information.

1 **Pick what your anthem celebrates**

Good anthems are not just loud. They stand for something.

Choose a school value, house value, club spirit, or team idea. Keep it broad and positive.

School / team / value

Example: our school's teamwork and courage

Anthem mood

Proud, upbeat

Teamwork

Courage

Kindness

Curiosity

Discipline

Resilience

THOUGHT BULB

“Our school is great” is too plain. “We learn together, stand together, and try again” gives the anthem something to sing.

☐

I chose one positive school value or team idea.

2 Build your Suno style line

Suno needs a clean music direction, not a long essay.

Use this shape. It tells Suno the length, feeling, topic, and sing-along quality.

YOUR SUNO LINE

A 30-second proud, upbeat school anthem about our school's teamwork and courage, easy to sing along.

STARTER STYLE LINE

A 30-second proud, upbeat school anthem about [school/value], easy to sing along.

WORKED EXAMPLE

A 30-second proud, upbeat school anthem about our school's teamwork and courage, easy to sing along.

CAUTION BOARD

Do not put real student names, phone numbers, addresses, private school details, or personal stories into the prompt. Keep it about a value, not private people.

☐

I built a short, clear Suno style line.

3

Use Suno for the tune

Free account may be needed. Ask a grown-up if account setup is required.

Suno

Paste the style line. Generate the anthem track. Listen once properly.

Canva

Later, make a lyric card with the best line from the anthem.

SUNO STEPS

1. Open Suno safely.
2. Paste your style line.
3. Generate the track.
4. Listen for a line your class can sing easily.

☐

I generated, or I am ready to generate, the anthem track in Suno.

4

Pick the best chorus line

An anthem needs one line people can remember.

Listen for the easiest, strongest line. It might be the chorus or the line that repeats. That line goes on your Canva lyric card.

Easy to sing

Can someone repeat it after hearing it once?

Positive

Does it celebrate a value without insulting anyone?

Short

Long anthem lines are hard to remember.

Class-friendly

Would you feel okay playing it in class?

Best chorus / lyric line

Example: We rise together, brave and bright.

☐

I chose one strong chorus or lyric line.

5 Use Canva for the lyric card

Now turn the anthem into something people can see.

Open Canva. Create a simple square or poster design. Add the anthem title and your best chorus line. Keep the design clean and readable.

Our Anthem

We rise together,
brave and bright.
One team. One voice.
One light.

CANVA SAFETY CHECK

Do not use real faces unless your teacher and school have clearly approved it. For this challenge, simple icons, shapes, colours, and text are enough.

☐ I made, or planned, a Canva lyric card for the anthem.

6 **Optional share: your class, your choice**

The anthem is for your own people, not for Vanguard Scholar.

Play it for your class, club, house team, or one friend if you want to. Ask one useful question: **“Which line is easiest to sing?”**

THOUGHT BULB

Sharing creative work does not mean asking “is it perfect?” Ask for one specific reaction. That makes the feedback useful.

☐

I shared it, or I chose who I might share it with.

7

Optional: make your AI Move card

A small reminder of the two-tool move you just learned.

☐

I made, sketched, or saved the AI Move card.

Final 5-minute move

Pick the best anthem line. Put it on a simple Canva card. Then decide: play it for your class, one friend, or just save it for now.

☐ I kept the anthem positive.

☐ I did not include personal details or real student names.

☐ I combined two tools toward one finished artefact.
