Male TRT Patients at London Collective

Choosing the right provider for testosterone replacement therapy (TRT) is a critical step toward optimizing your health. At London Collective, we believe in offering personalized care tailored to each individual’s wellness journey. Our team’s experience in hormone restoration, coupled with our patient-centered approach, ensures that your treatment plan is designed specifically for your needs and goals.

Transparent Pricing and Value

At London Collective, we don’t believe in locking our patients into contracts or memberships. Your health, your schedule, and your financial choices should always be in your control. That’s why we offer flexible care options, so you get the value you deserve without hidden fees or obligations.

What Makes London Collective Different?

Personalized treatment plans.

We go beyond basic lab work to offer comprehensive tests that give us a complete picture of your hormone health. This ensures that we’re addressing the root causes of your symptoms, not just treating surface-level issues.

Extended consultations.

Our 1-hour consultations give you the time you need to discuss your health concerns, whether it’s testosterone therapy, libido, body composition, or additional treatments like PRP for hair restoration or sexual enhancement.

Expertise you can trust.

With years of experience helping men optimize their hormone levels, we specialize in treating those who haven’t found success elsewhere.

Variety of treatment options.

Whether it’s injections, creams, Pellets or other methods, we’ll work with you to find the best TRT option for your lifestyle and health goals.

Simple medication ordering.

We partner with trusted pharmacies to ensure quick and convenient delivery of your medications, directly to your door.

Customized Medication Protocols.

After your consultation, we’ll prescribe the most effective medications for your needs, whether it’s Testosterone Cypionate or other supporting therapies.

Membership Structure Initial Consultation & Lab Testing

Initial 1-Hour Consultation: 199
Initial lab Self-Pay Option: 185

Option 1: Membership Tiers

**All membership tiers includes quarterly or biannually consultations (Telehealth available), supplies, labs every 6 months, lab reviews, and medications. NAD+, Glutathione or B12 injection every 6 weeks.*

- ☒ **Testosterone Injections Plan: 179/month**
- ☒ **Testosterone Cream Plan: 179/month**
- ☒ **Testosterone + DHEA Plan: 199/month**
- ☒ **Testosterone + Thyroid Support Plan: 265/month**

Option 2: Pellet Therapy (not a membership)

- ☒ **Initial lab panel: 185 or use your insurance**
- ☒ **Initial 1-Hour Consult: 199**
- ☒ **Pellet insertion is 649 every 4-6 months**

We require a 4-week lab draw after the first post pellet insertion and a follow up 5 weeks after (this is all included in the initial fee).

***Pellets provide stable, long-term hormone levels and require fewer interventions than other forms.**

1.Initial Lab Panel:

Includes tests like a CBC, CMP, PSA W/ reflex to free, T3 free, T4 free, SHBG, Testosterone free/total, TPO, TSH and others. Additional tests may be recommended based on your health history.

2.Follow-up Labs:

Regular monitoring may include tests such as SHBG, Testosterone Free/Total and others.

3.Pricing overview:

Medications typically prescribed include Testosterone Cypionate or bioidentical creams and necessary supplies, though your specific protocol may vary. Additional medications and supplements may be added based on your needs. HCG protocol not included in above prices.

Note: We may recommend another consultation and lab tests based on your results and symptoms, especially if your medication or dosage has been adjusted.

Labs are performed every 6 months. At the start of treatment, labs are drawn more frequently until your hormone levels are stabilized.
