

# COINKINGS

## Investment Strategy

An exclusive investment fund consisting of an approximately 80/20 weighted mix of blue chip cryptocurrency assets and emerging tokens on the cusp of mainstream adoption. To be sure, investors will fully participate in the expansion and evolution of the overall cryptocurrency industry. In addition, and with an emphasis on asymmetric upside exposure, the fund will take part in projects that show promise for utility within the rising and global web 3.0 environment.

### Blue Chip Exposure

BTC, ETH, ADA  
SOL, DOT, AVAX, MATIC

### Emerging Coins

10-15 projects (incl. CRO, STX,  
LINK, ATOM, , etc)

### Web 3.0

Defi, Gaming, NFTs, Nodes,  
Metaverse, Play to Earn, AR/VR

## About the Firm

The history of the founders include highly relevant; education, traditional financial market experience and entrepreneurial endeavours. In addition, investors will benefit from cryptocurrency-specific experience dating back to 2016 which includes mining, staking, trading, investing and yield farming.

### Security

The fund utilizes the highest available institutional grade security protocols, including multi-signature biometric cold storage. Asset protection is our top priority.

### Methodology

A portfolio of assets will be assembled using a proven discretionary research model. Analyzing talent, capital, and adoption trends, we identify the signal from the noise.

### Diversification

Market-weighted exposure to the most established assets coupled with a highly curated short list of assets on the verge attaining industry-wide attention and momentum.
