Take Advantage of IRS Section 179 and Bonus Depreciation for 2025

The Section 179 deduction is a valuable tool for businesses to maximize their financial flexibility. It allows you to deduct the total cost of qualifying equipment, machinery, vehicles, and software purchased or financed during the 2025 tax year.

- The current tax law allows 40% "Bonus Depreciation" on new and used equipment placed in service during the 2025 tax year.
- The deduction begins to phase out on a dollar-for-dollar basis after \$3,130,000 is spent by a given business.
- Note: You should always consult your accountant or tax advisor prior to making any purchase based on tax implications.
