Dear Friend,

Just a reminder that street sweeping begins today and will run through mid-November. Chicago utilizes mechanical street sweepers to remove debris and litter from streets. Bright orange temporary parking restrictions are posted the day before sweeping service is scheduled to ensure curb-to-curb cleaning.

To avoid a ticket and allow street sweepers to thoroughly clean streets please pay close attention for the signs posted on side streets or main streets. If you would like to look ahead at the City’s scheduled street sweeping schedule for the entire 2025 season, click [HERE](#). Another good resource which allows you to subscribe for email reminders for your street sweeping dates can be found [HERE](#).

Example of street sweeping Schedule below
