

Men's Golf League News, September – 2025

Fake News Reporter - Tad Lague

On a sad note, The Lake Fairways Men's League would like to extend our condolences to the **Helmig Family**. Scottie and Diana's daughter, Victoria passed in July. Our thoughts are with you.

On a less somber note, there was a little excitement at Lake Fairways in early August. We had a small golf cart incident behind #12 Tee. There are conflicting reports as to exactly what happened. Eyewitnesses, **Larry O'Brien, Ron McManus** and **Jim Mantini** said they had already pulled away from the tee box enroute to tracking down a few bad shots, when they heard a loud noise and looked back to see **John Murray's** red golf cart on top of the green watering system control box.

No casualties were reported, and the golf cart was undamaged, for those not particularly concerned about Mr. Murray's condition. When contacted for comments about the incident, **John Murray**, who was wearing a neck brace, said he was reserving any statements on advice of counsel while an investigation is pending.

Hole-In-One Report – Pete Greco and the **Hole-in-One Gang** strikes again. A daily 5-Some that heads out in the heat of day has been building a resume of holes-in-one for its members. This time, **John Grab**, who got his first hole-in-one earlier this year, nailed his second ace on July 11th at the LF 17th hole. John hit a pitching wedge which landed about 4 feet left of the front pin and spun right into the hole. It's almost spooky how this group has managed to find the rare shot so often.

Worth mentioning, one of our more popular members, **Paul Falcone**, who had a recurrence of cancer, has just been diagnosed as cancer-free and is currently in remission. Way to hang in there Paul.
