OUR VISION

An education sector united by a clear and purposeful golden thread that drives meaningful change and improved outcomes for all learners.

OUR MISSION

To help organisations design innovative, inclusive, and impactful approaches that improve outcomes for all learners and meet the evolving demands of today's education landscape.

About RISE Consulting

Rebecca, an esteemed education consultant and founding Director of Rebecca Iverson Strategic Excellence (RISE), is dedicated to supporting leaders, practitioners, education providers, and local authorities in creating the golden thread that connects vision, strategy, and practice. My mission is to help organisations design innovative, inclusive, and impactful approaches that improve outcomes for all learners and meet the evolving demands of today's education landscape.

Curriculum reform, changes to inspection, and the anticipated white paper - combined with ongoing challenges around funding, staff and learner recruitment, and rapid technological and labour-market shifts - create an increasingly unstable landscape for leaders and managers to navigate.

RISE can provide vital leadership support to build capacity within your team and collaborate with you from concept to implementation, whether on a small scale or across the entire organisation. Support can range from a single day to long-term collaboration. If you'd like to explore how Rebecca Iverson and RISE can support you, please get in touch.

Discover your potential with RISE Consulting Ltd

Strategic Leadership Capacity

When strategic priorities need to move forward but leadership capacity is stretched, I provide focused, hands-on support to keep momentum high. I take ownership of key strategic areas, bring targeted specialist expertise, and work in partnership with your team to guide delivery—right through to full implementation where needed.

Curriculum Development and Reform

I work collaboratively with leaders and practitioners to design and develop high-quality, future-focused curricula. This includes:

- Understanding the impact of curriculum change
- Curriculum design and planning
- Identifying and engaging key stakeholder partners
- Assessing staff capacity and skills gaps
- Supporting resource development and identifying requirements
- Costing delivery models for long-term financial sustainability

Quality Assurance

Preparing for external quality audits can be challenging, particularly when staff do not feel confident during external audits. I support teams at all levels to:

- Demystify the audit process and remove misconceptions
- Build confidence in articulating their provision clearly and accurately
- Understand quality expectations and how to evidence them

I also support organisations to identify strengths and development areas within their provision, and develop action plans that drive swift, measurable impact.

Critical Friend

Working as a critical friend to provide constructive challenge and guidance in areas such as:

- Reviewing systems and processes to identify efficiencies
- Analysing data to highlight strengths, trends, and areas for improvement
- Identifying potential areas for growth and development
- Reviewing or drafting policies and procedures

The logo for RISE Consulting Ltd features the word "RISE" in a bold, dark blue, serif font. A stylized orange line starts from the bottom left of the letter 'I', loops around the 'S', and ends at the bottom right of the 'E'. Below the 'E', there is a small icon of a stack of gold coins.

RISE

Self-Assessment Support

Providing support to organisations with all aspects of the self-assessment cycle, including:

- Facilitating team-based self-assessment activities
- Reviewing the robustness, validity, and clarity of judgements
- Analysing data and reporting processes to identify trends, anomalies, and areas for development
- Conducting case sampling with quality, curriculum, and pastoral teams to triangulate and test practice

Interim Leadership Support

Where organisations experience vacancies due to long-term absence, maternity leave, or transitional periods, I can offer short-term interim leadership support to maintain continuity and momentum.

Keynote Speaking

Delivering keynote talks on the “golden thread” of inclusivity—exploring why inclusive practice should be the norm rather than the challenge, and how organisations can embed this across their culture, curriculum, and operations.

Testimonials

Rebecca's approach to people management and leadership is exemplary, delivering and driving high performance whilst keeping people at the heart of everything she does. Rebecca's core values of honesty, integrity and respect are threaded through her working practice.

— Jo Bieda

Rebecca Iverson is one of the most inspirational and impactful leaders I have ever worked with. She makes positive change happen, and she does that with a combination of humility and charisma wholly underpinned by evaluation, consultation and performance measurement. I recommend her without reservation.

— Mark White CBE

Having worked with Rebecca for a number of years she has great expertise in taking a forensic approach to analysis and determining root causes to areas that need enhancement or improvement leading to rapid improvement and sustained performance.

— Jason Faulkner
