

## **Animal Hospital of Beeton**

### **Non-urgent and Annual Health Appointments and Medication/Food Orders**

Hello Everyone!

We would like to thank everyone for their continued patience and understanding while we continue to navigate the new normal brought about by COVID-19.

We continue to experience a much higher than normal volume of phone calls and emails and we are doing our best to respond promptly with the most urgent concerns receiving priority.

We are currently booking 3-4 weeks in advance for annual health visits and non-urgent/emergent health concerns. If your pet has a vaccination that may expire, we will work to schedule a visit to ensure that this does not occur.

If your pet is on a chronic medication or prescription diet, please provide us with a minimum of 7 days notice to order this product. We will notify you when it is available for pick-up.

Unfortunately, we are still experiencing back-orders on several products due to shipping delays associated with COVID-19.

We continue to have scheduled pick-up times for products – these are listed on our website and in our email signature.

If you have an urgent health concern outside of our business hours, please reach out to one of the emergency hospitals listed on our website. Please be aware that all hospitals are experiencing longer wait times due to the increased number of calls and patient visits.

Thank you for your ongoing support!

Stay safe and well,

The team at the Animal Hospital of Beeton
