

BOYS & GIRLS CLUBS
OF GREATER AUGUSTA

ANNUAL REPORT

AUGUST 2020 - JULY 2021

A MESSAGE FROM OUR CHIEF EXECUTIVE OFFICER

WHAT A DIFFERENCE A YEAR MAKES!

Resilient. Strong. Committed. Having emerged from the pandemic with new-found resilience and strength, we are committed, now more than ever, to do **WHATEVER IT TAKES** for every child we can possibly reach. Our operation has become more agile and robust as we adapted to our Club members' needs over the last 18 months. We are thrilled to expand on all that we learned as we prepare to move into our new Support Center at the HUB for Community Innovation in the Spring!

Being out of the classroom for well over a year has had an undeniable impact on our club members and their wellbeing, so we are doing Whatever It Takes through our After School Program to address it, particularly around learning loss and social & emotional support. We have hired more certified teachers to increase subject matter tutoring in small groups and one-on-one, and to perform regular grade-level assessments ensuring kids move to the next grade level prepared and on time. We are purposely working to serve more children, and serve them better.

Our new home on the campus of the HUB for Community Innovation will allow us to better reach the communities we serve with intentional focus on the children who need us most. I hope you will join us to celebrate this exciting time in our history!

I will close out with a special thanks to our Board President, Steven Kendrick, whose term will be coming to an end in December, and a **HUGE THANK YOU** to our supporters. We are grateful for Steven, and his steadfast commitment to the work of serving youth in the Augusta area. His leadership helped propel our organization to new heights, and we are better today because of it. And lastly, **THANK YOU** to all of you who take our mission to heart by joining us in serving those who need us most through your generous gifts. Their lives will be greater because of **YOU!**

In Service to Youth,

Kim Evans, Chief Executive Officer

Why support Boys & Girls Clubs?

Because when you do, kids like Beleil change the world.

How the Club helped Beleil:

Beleil attended Boys & Girls Clubs for five years and graduated with honors from AR Johnson Magnet School in 2019. He was the 2019 Boys & Girls Clubs of Greater Augusta Youth of the Year; introduced Dr. Condoleezza Rice at a Special Fundraising event, received a \$2,500 Scholarship from Barney's Pharmacy, served as a Page at the Georgia Capitol, and spoke on behalf of Boys & Girls Clubs at a Private Masters Week reception attended by Augusta National Golf Club Members and "the voice of the Masters," Jim Nantz.

Where is he now?

Pursuing a degree at Howard university, majoring in chemical engineering with plans to attend law school after graduation. He is a defense attorney on Howard's mock trial team and has served as a research assistant in the Howard surface engineering and nano fluids laboratory along with other organizations on and around campus.

Most recently, he's spent time interning at Morehouse School of Medicine (MSM) working for the Director of Facilities Management. Beleil loves working there and says "It's so empowering to see the diverse minority groups succeeding in healthcare." Through his internship, Beleil has worked on a project aimed at enhancing the sustainability practices of MSM. To do this, Beleil arranged a meeting with an Atlanta minority and women business enterprise named Goodr, a company on the rise for developing tech and logistics that allow businesses to reduce food waste and donate to the less fortunate. They have clients including Hartsfield-Jackson Airport, Netflix, Six Flags, and the Georgia World Congress Convention Center so Beleil thought MSM would be the perfect addition to the list. After giving Goodr a tour of campus and discussing the department's needs, they're now in the process of revolutionizing MSM's standard of sustainability with plans to change from single stream to source recycling and investing in waste to fuel opportunities, amongst many other changes.

And although he spends eight to ten hours a week in Organic Chemistry Lab, along with his Organic Chemistry II and Physical Chemistry classes, Beleil still finds ways to stay active and be productive in his free time. A former high school tennis star, Beleil has reconnected with his favorite sport through a tennis group at school where he plays regularly. He's also an active member of the National Society of Black Engineers where he volunteers to teach computer science to elementary and middle school students. Beleil and his friends have even started a foundation for the benefit of Howard students and alums working to launch their own businesses. After noticing how hard it is for most entrepreneurs to find investors for their start-ups, and with Howard being notorious for breeding talented entrepreneurs, Beleil and his friends thought, "who better to give back to?". So, they formed a foundation and host fundraisers and other outreach events throughout the year with the goal of selecting a recipient from a candidate pool of Howard students and alum to receive a donation as a means to help them get their startup...well, started!

This is only the beginning for Beleil. As he moves closer to college graduation there is no doubt his outlook is bright and we are so proud to have walked alongside him as he started his path towards a GREAT future. We look forward to seeing where he goes and hope that you'll continue to support the thousands of youth we serve who all have the potential to achieve success, just like Beleil.

Our executive leadership team has over 50 years of combined experience in the Boys & Girls Club movement.

From Top Left to Right: Kim Evans, Chief Executive Officer, Bridgett Carrington, Chief Finance Officer, Maria Henry, Chief Development Officer, Carlos Daniels, Chief Operations Officer, Dr. Shaniquia Stanley, Director of Academic Success, Jeremy McCoy, Director of Club Experience

COMMITMENT TO OUR DONOR-INVESTORS

Boys & Girls Clubs of Greater Augusta is committed to intentional best practices in nonprofit governance, and the Board of Directors, in its role as community stewards, takes this commitment to heart. It is only through a transparent and ethical relationship between our donor-investors, our membership, our staff, and all of our community that we can fulfill this commitment and implement our mission. Through their Duty of Care, our Board of Directors, acting as trustees of resources invested in the Boys & Girls Clubs of Greater Augusta, uses diligence, care, and skill. They are familiar with the organization's finances and activities, and participate in its governance. As such, finances are reviewed monthly in-depth by a Finance Committee. This review includes line item comparison of monthly and year-to-date budget versus actual, monitoring of the Balance Sheet, and a summary 4-6 month Cash Flow Statement with corresponding accounts payables and receivables listed. This is supported by a secondary review of finances by the Board of Directors in its' entirety that includes a classification comparison of monthly and year-to-date budget versus actual, Cash Flow Statement and Balance Sheet. Two signatures are required on all checks, with supporting documentation attached for approval. Each year, as an affiliate of Boys & Girls Clubs of America, a full audit is conducted which includes a rigorous risk assessment of accounting and financial reporting systems. In addition to our regular annual audit, a comprehensive A-133 audit is also done on our large programs. Once again in 2021, this resulted in an unmodified, or clean, opinion on our 2020 financial statements with NO FINDINGS. The Boys & Girls Clubs of Greater Augusta is happy to make available to any member of the public a copy of our financial statements upon request. The Form 990 filing for the organization can be found on [guidestar.org](https://www.guidestar.org). There you can review the most current Form 990. In an effort to maintain transparency, you can also find all of these documents on our website: www.bgcgreateraugusta.org. The Boys & Girls Clubs of Greater Augusta maintains a strong, layered segregation of duties for financial controls that ensures no less than four individuals are involved in any single transaction. This process includes an individual to input the transaction in a timely manner, a separate individual to review the transaction for mistakes, errors or fraud, another person to approve the transaction, and finally one last individual to substantiate the transaction to ensure it is utilized as intended in the carrying out of the mission for the organization. Any and all documents referenced are available for review at the Administrative Office, located at 206 Milledge Road, Augusta, GA, or can be requested via email at bcarrington@bgcgreateraugusta.org or by calling us at 706-504-4071.

The Hagler Family Legacy

In 1950, the family of Edward W. Hagler suffered a devastating loss; their oldest son Carter, a West Point graduate, who bravely gave his life in service to our country on a remote battlefield in Korea. Consumed with mourning, Ed sought a way to ease his suffering while changing lives for others. He noticed that Augusta's mill neighborhoods in Harrisburg were filled in the afternoons by boys with no supervision and no purpose, and he established friendships with many of the young men. Over time, more and more boys flocked to Ed for companionship, advice, and direction. Inspired by one of his last conversations with his late son Carter, Ed called on his friends in the community to help him establish a place for these boys to congregate after school. In 1951 Mr. Hagler set out to form the Boys Club of Augusta.

Mr. Hagler worked diligently with the local community and the Boys Club of America to secure a building, form a board of directors, and ultimately begin what would be the start of the now Boys & Girls Club of the CSRA. For 32 years, Mr. Hagler devoted his life to the service of empowering young persons in the Augusta area through the Boys & Girls Clubs. Ed Hagler's dream was that every young boy would know that he was an important part of his hometown and that each would discover his own reservoir of untapped potential. Over seventy years later, that dream has reached further than many could ever envision. From a simple, run-down building on Broad Street that welcomed about 30 boys after school on an average day, an entire movement in youth development has blossomed.

Boys & Girls Clubs of the CSRA now serves 3,900 youth across three counties every day after school and during the summer. These young people are immersed daily in character and skill building programs that guide them to bright futures, regardless of their current circumstances.

The Hagler family has remained steadfast in their commitment to serving youth in the CSRA. Dr. William Hagler, Edward Hagler's son, along with his wife Gail and their children have led the way in supporting Boys & Girls Clubs of the CSRA. They have served a critical role in helping raise awareness in the community around Boys & Girls Club programs along with financial support and service to the Club. Their son Will serves on the Executive Board of Directors and we can always count on any number of the large, extended Hagler family to support local events.

Dr. and Mrs. Hagler have also created a scholarship for Camp Greenville, located near their home in the North Carolina mountains. For 106 years Camp Greenville has been owned and operated by the YMCA of Greenville. At 1,400 acres, Camp Greenville is the fifth largest Y Camp in the country. Its unique mountaintop setting and adventurous programs make for unforgettable experiences that provide a lifetime of memories. Dr. Hagler attended the camp as a child, served as a camp counselor and sent his own children to this camp. It holds a special place in his heart and true to their generous nature, he and Gail wanted to share this camp experience with Boys & Girls Club members. So, each summer Boys & Girls Club members are selected to receive the Hagler's scholarship to attend camp. For several members this has served as a life changing experience. Club alum Grant Stokes attended Camp Greenville and eventually became a camp counselor. Grant says, "My experiences at Camp Greenville played a significant role in my development as a person. Having no real appreciation or knowledge of nature as an upcoming freshman in high school, Camp Greenville exposed me to an aspect of life I was otherwise been oblivious. Not only was the surrounding landscape astonishing, but the people were welcoming and portrayed a genuine sense of camaraderie which was contagious."

Our mission is to inspire and enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens.

Our vision is to provide a world class Club experience that assures success is within reach of every young person we serve.

The Boys & Girls Club Code is, "I believe in God and the right to worship according to my own faith and religion. I believe in America and the American way of life, in the Constitution and the Bill of Rights. I believe in fair play, honesty and sportsmanship. I believe in my Boys & Girls Club, which stands for these things."

SIX WAYS WE

MEASURE SUCCESS

1. FORMULA FOR IMPACT ASSESSMENT

Our Formula for Impact Assessment helps our Clubs assess and improve the quality of our programs in order to deepen our impact on the youth we serve. The assessment is used as an annual action plan to guide staff in achieving positive outcomes and maximum program results.

2. KEY PERFORMANCE INDICATORS

Key Performance Indicators allow us to measure our programs and operations in 21 different areas including: strategic growth, impact, financials, resources, and board engagement. These indicators allow us to compare our organization to other Boys & Girls Clubs across the nation and give us the ability to track our performance over time.

3. CHILD SAFETY ASSESSMENT

Our annual Child Safety Assessment measures the efficiency of our policies and procedures in 50 different areas. We focus our safety assessment on transportation, technology, facilities, hazards, emergency response, insurance coverages, and daily operations.

4. NATIONAL YOUTH OUTCOMES INITIATIVE

Commonly referred to as NYOI, the National Youth Outcomes Initiative, provides measurement indicators on our strategic outcome areas of Academic Success, Healthy Lifestyles, and Good Character & Citizenship. The NYOI reports on indicators related to our members' overall Club experience and utilizes a member data tracking system along with survey data to benchmark our Clubs' impact both locally and nationally.

5. ANNUAL FINANCIAL AUDIT

Our Annual Financial Audit is conducted by a licensed certified public accountant who analyzes our financial transactions, procedures, and activities in order to assess the fiscal soundness of our organization.

6. BGCA ANNUAL REPORT

The Boys & Girls Clubs of America Annual Report is a comprehensive analysis of the organization as a whole. The report gives us 60+ pages of data related to our programs, Club attendance, board activity, financial activity, resource development, personnel, and operations.

BOYS & GIRLS CLUBS
OF GREATER AUGUSTA

Through their leadership and generosity, Jeremiah Milbank Society members have helped to assure that every child who attends Boys & Girls Clubs of Greater Augusta is provided with hope and opportunity, a safe place to learn and grow, and a relationship with an adult who can positively impact their life. Jeremiah Milbank was a remarkable person and lifelong volunteer who gave generously to his firm belief in Boys & Girls Clubs' mission. It is through his legacy that Boys & Girls Clubs of America created The Jeremiah Milbank Society as a way to pay tribute, on a national level, to local Club donors. Boys & Girls Clubs of Greater Augusta is honored to have Jeremiah Milbank Society members who support us in providing great futures for youth across the Augusta area. On behalf of our Club members, we are grateful for their belief in us and their dedication to serving the youth of their community.

The Jeremiah Milbank society was created to inspire & recognize higher level unrestricted giving from individuals within local Clubs. Each member of the society has given a gift of \$10,000 or more to their local Boys & Girls Club.

HOW DO WE FULFILL OUR MISSION & ENSURE SUCCESS IS WITHIN REACH OF EVERY YOUNG PERSON WE SERVE?

To fulfill our mission and achieve success in our priority outcome areas of **ACADEMICS, CHARACTER & CITIZENSHIP, AND HEALTHY LIFESTYLES**, we take the kids who need us most and add an outcomes driven Club experience which includes high yield learning activities, targeted programs, and project based learning experiences aligned to the five key elements for positive youth development- **SAFE & POSITIVE ENVIRONMENTS, FUN, SUPPORTIVE RELATIONSHIPS, OPPORTUNITIES & EXPECTATIONS, AND RECOGNITION**. The nationally recognized "Formula for Impact" developed by Boys & Girls Clubs of America, states that when you take the young people who need us most and add an outcomes driven Club experience, the result is **SUCCESS** in each of our priority outcome areas.

OUR FIVE YEAR STRATEGIC PLAN, IMPACT 2025, provides us with a detailed plan for how we will implement programs, improve operations and carryout our mission. The framework for the plan is broken out into four Strategic Priorities upon which we will focus our efforts. Strategic Priority #1 is to **STRENGTHEN THE ORGANIZATION**- build a strong board, strengthen Resource Development, hire and train quality staff. Strategic Priority #2 is to **IMPROVE PROGRAM QUALITY**- establish top quality standards and assessment process through rigorous staff training. Strategic Priority #3 is to **ADVOCATE FOR YOUTH DEVELOPMENT**- establish Boys & Girls Club as a leading voice, advocate and thought leader in youth development. Strategic Priority #4 is to **REACH MORE YOUTH**- incrementally until 2025, with an aspirational goal of doubling our service to families, serving over 1,500 youth per day and 5,000 annually.

COVID-19 RECOVERY: Addressing Learning Loss

WHAT IS COVID-19 RELATED LEARNING LOSS?

The absence of hands-on, in-person learning in K-12 students has resulted in significant delays in learning. It is estimated that at the end of the 2020-2021 school year, students were nationally 5 months behind in mathematics, and 4 months behind in reading.* From time spent supervising younger siblings, having new financial responsibilities, and dealing with mental health challenges that affected many of our families, school no longer had the option of being a priority for many of our youth.

WHY DOES THIS MATTER TO BOYS & GIRLS CLUBS OF GREATER AUGUSTA?

In Richmond County, 60% of 3rd graders have not met their reading grade level. The repercussions of this alone can have drastic effects as nationally, 33% of students not reading on their grade level by 3rd grade will not graduate high school. Facing these staggering numbers, we knew we had to RISE and provide every resource possible to ensure our kids will still have GREAT FUTURES ahead.

WHAT ARE WE DOING TO HELP?

Thanks to club supporters and the help of special COVID-19 relief grants, we have invested in more certified teachers and tutors to teach in small groups and one-on-one with Club Members. Regular assessments to track academic progress have proven vital to measuring students' success, and we have hired a new Director of Academic Success, Dr. Shaniquia Stanley, to ensure the implementation curriculum guidelines and provide learning loss-targeted teaching techniques.

We are Boys & Girls Clubs and we aren't afraid of challenges - we meet them head on, ready to help make things better, build a better future, and be there for our Club members through these trying times. Now, more than ever, we are doing **#WhateverItTakes** to ensure our Club members' needs are being met.

THREE REASONS BOYS & GIRLS CLUBS MATTER

{ 1. }

OVER 98% OF BGC SENIORS GRADUATE FROM HIGH SCHOOL WITH A PLAN FOR CONTINUED EDUCATION, WORK, OR MILITARY SERVICE.

HERE'S WHY IT MATTERS: The Alliance for Excellent Education recently reported the best economic stimulus for a community is a high school diploma in the hands of its young people. The dropout rate has reached epidemic proportions, especially among students exhibiting two of three risk factors including low socio-economic status, minority ethnic status, and single female headed household status, in short, the youth most in need of our Clubs. Without a high school diploma, young people are far more likely to spend their lives periodically unemployed, on government assistance, or cycling in and out of the prison system. In today's knowledge based economy, high school dropouts are not the only ones affected when they choose to drop out.

{ 2. }

70% OF TEEN MOTHERS EVENTUALLY DROP OUT OF SCHOOL. SINCE 2009, NO REGULARLY PARTICIPATING BGC MEMBERS HAVE BECOME PARENTS.

HERE'S WHY IT MATTERS: Lower local, state, and national tax revenues are the most obvious consequences of higher dropout rates; even when dropouts are employed, they earn, on average, \$8,000 less annually than high school graduates and they pay less in taxes. State and local economies suffer further when they have less-educated populaces, as they find it more difficult to attract new business investments. Simultaneously, these entities must spend more on social programs when they have lower educational levels.

{ 3. }

NOT A SINGLE BGC MEMBER HAS ENTERED THE JUVENILE JUSTICE SYSTEM AS A FIRST TIME OFFENDER IN 13 YEARS.

HERE'S WHY IT MATTERS: Most youth who enter the juvenile justice system do so at considerable cost to their futures and their communities. Taxpayers pay an average of \$90,000 to incarcerate a young person for one year in a detention program, and the social and personal ramifications of incarceration are steep. Not only is incarceration expensive, but recidivism rates among youth are shockingly high and many establish the anti-social attitudes and relationships while incarcerated that place them at risk for a life-time of criminal behavior. Risk factors that indicate a child may become delinquent are easily identified and include academic failure, peer delinquency, and lack of supervision. Boys & Girls Club programs help young people address the issues that are prevalent in their communities and among their peers in constructive ways and avoid risky behaviors all together.
