

FEDERAL CYBER DEFENSE SOLUTIONS, INC.

FEDRAMP HIGH | AI SECURITY | CLOUD COMPLIANCE | CONTINUOUS MONITORING

MISSION

Federal Cyber Defense Solutions (FCD) helps federal agencies and SaaS providers accelerate FedRAMP authorization, strengthen cloud security, implement AI governance, and maintain continuous compliance through executive cybersecurity leadership and hands-on technical expertise.

CORE CAPABILITIES

FedRAMP Authorization & Readiness

- FedRAMP High and Moderate assessments
- SSP development and remediation support
- Control implementation and validation
- Security architecture reviews
- Agency and 20x authorization preparation

Continuous Monitoring

- Monthly vulnerability management
- POA&M management and reporting
- Continuous control monitoring
- Annual assessment preparation
- Audit support and evidence collection

AI Security & Governance

- AI risk assessments
- AI governance frameworks
- Secure AI implementation
- AI security architecture reviews
- AI compliance and regulatory alignment

Cloud Security

- AWS, Azure, and Google Cloud security
- Security architecture reviews
- Zero Trust implementation
- Identity and access management
- Threat detection and response

DIFFERENTIATORS

- Led the earliest FedRAMP-authorized cybersecurity SaaS platforms for the federal government.
- Experience supporting FedRAMP High environments and NIST 800-53 Rev. 5 compliance.
- Active participant in FedRAMP 20x modernization initiatives.
- Former CISO leadership across fintech, SaaS, cloud, and regulated industries.
- Expertise combining cybersecurity, compliance, automation, and AI governance.
