

Thoroughbred Transition Project (TPP) Adoption Vetting Policy

If you choose to do a pre-purchase exam (PPE) and have a TPP horse vetted prior to adoption:

- The PPE should be scheduled within 2 weeks of adoption approval by TPP;
- Once the PPE is scheduled a non-refundable deposit of \$200 will put a hold on the horse for the applicant through completion of the vetting process;
- The \$200 deposit will be applied to the adoption price should the adoption go forward. It is, however, non-refundable if applicant decides not to proceed with adoption;
- At the conclusion of the PPE applicant has 2 days to decide if they will be proceeding with adoption;
- In the event a horse abscesses or is otherwise unfit to be vetted the deposit will be return and the hold for the PPE terminated;
- Once an adoption is finalized the horse must be shipped within 7 days. After 7 days a \$50/day charge will apply.
