QUOTE(S) OF THE WEEK

“Imagination is the highest kite one can fly.” – Lauren Bacall

“Rather fail with honor than succeed by fraud.” – Sophocles

“The artist never entirely knows. We guess. We may be wrong, but we take leap after leap in the dark.” – Agnes de Mille

“If you give people literacy, bad ideas can be attacked and experiments tried, and lessons will accumulate.” – Steven Pinker

“Science in textbooks is not fun. But if you start doing science yourself, you will find delight.” – Masatoshi Koshiba

“To begin, begin.” – William Wordsworth

“True creativity is impossible without some measure of passion.” – Teresa Amabile

The **National Creativity Network** believes that by fostering creativity in our society as a whole, and specifically with future generations, America can remain a leader in innovation and free enterprise. The very future of our communities and institutions depends on our ability to nurture and harness imagination to creatively solve problems. If creativity is to be nurtured, systems, institutions and networks must be transformed.

The opportunities that emerge to transform our nation are largely dependent upon the degree to which we are connected to each other. Our connection will become a catalyst:

- to enhance the flow of relevant information,
- and to improve the ease with which key nodes of creativity, be they in the domains of Education, Commerce, Culture or across disciplines, can gain access to the best thinking, best questions, and most successful practices as well as other resources their ventures may require.

Our strategy is to engage thought leaders across North America to create a powerful network for transformation.
