## ARTICLES OF INTEREST

**October 12, 2018**

### QUOTE(S) OF THE WEEK

“Every story I create, creates me. I write to create myself.” – Octavia E. Butler

“Don't quit. Never give up trying to build the world you can see, even if others can't see it. Listen to your drum and your drum only. It's the one that makes the sweetest sound.”  
– Simon Sinek

“Pure mathematics is, in its way, the poetry of logical ideas.” – Albert Einstein

“You must do the things you think you cannot do.” – Eleanor Roosevelt

“No pessimist ever discovered the secret of the stars, or sailed to an uncharted land, or opened a new doorway for the human spirit.” – Helen Keller

“Throughout history, people with new ideas—who think differently and try to change things—have always been called troublemakers.” – Richelle Mead

The **National Creativity Network** believes that by fostering creativity in our society as a whole, and specifically with future generations, America can remain a leader in innovation and free enterprise. The very future of our communities and institutions depends on our ability to nurture and harness imagination to creatively solve problems. If creativity is to be nurtured, systems, institutions and networks must be transformed.

The opportunities that emerge to transform our nation are largely dependent upon the degree to which we are connected to each other. Our connection will become a catalyst:

- to enhance the flow of relevant information,
- and to improve the ease with which key nodes of creativity, be they in the domains of Education, Commerce, Culture or across disciplines, can gain access to the best thinking, best questions, and most successful practices as well as other resources their ventures may require.

Our strategy is to engage thought leaders across North America to create a powerful network for transformation.

Join Us!
