October 8, 2021

### QUOTE(S) OF THE WEEK

“The truth seems to be that we live in concepts of the imagination before the reason has established them. If this is true, then reason is simply the methodizer of the imagination.”  
– Wallace Stevens

“If opportunity doesn't knock, build a door.” – Milton Berle

“Creativity is a highfalutin word for the work I have to do between now and Tuesday.” – Ray Kroc

“Every marvel of our age arose out of the critical give and take of an open society. No other civilization ever managed to incorporate this crucial innovation, weaving it into daily life. And if you disagree with this ... say so!” – David Brin

“The opposite of a correct statement is a false statement. But the opposite of a profound truth may well be another profound truth.” – Niels Bohr

“Passion is one great force that unleashes creativity, because if you're passionate about something, then you're more willing to take risks.” – Yo-Yo Ma

“Creativity comes from trust. Trust your instincts. And never hope more than you work.”  
– Rita Mae Brown

The **National Creativity Network** believes that by fostering creativity in our society as a whole, and specifically with future generations, America can remain a leader in innovation and free enterprise. The very future of our communities and institutions depends on our ability to nurture and harness imagination to creatively solve problems. If creativity is to be nurtured, systems, institutions and networks must be transformed.

The opportunities that emerge to transform our nation are largely dependent upon the degree to which we are connected to each other. Our connection will become a catalyst:

- to enhance the flow of relevant information,
- and to improve the ease with which key nodes of creativity, be they in the domains of Education, Commerce, Culture or across disciplines, can gain access to the best thinking, best questions, and most successful practices as well as other resources their ventures may require.

Our strategy is to engage thought leaders across North America to create a powerful network for transformation.
