QUOTE(S) OF THE WEEK

"Halloween is an opportunity to be really creative." – Judy Gold

"If you lose, don't lose the lesson." – Dahli Lama

"Men may move mountains, but ideas move men." – Lois McMaster Bujold

"A life spent making mistakes is not only more honorable, but more useful than a life spent doing nothing." – George Bernard Shaw

"The best way to make a dream come true is to wake up." – Dame Anna Wintour

"Good judgment comes from experience, and a lot of that comes from bad judgment." – Will Rogers

"Anyone can become an inventor as long as they keep an open and inquiring mind and never overlook the possible significance of an accident or apparent failure." – Patsy O'Connell Sherman

The **National Creativity Network** believes that by fostering creativity in our society as a whole, and specifically with future generations, America can remain a leader in innovation and free enterprise. The very future of our communities and institutions depends on our ability to nurture and harness imagination to creatively solve problems. If creativity is to be nurtured, systems, institutions and networks must be transformed.

The opportunities that emerge to transform our nation are largely dependent upon the degree to which we are connected to each other. Our connection will become a catalyst:

- to enhance the flow of relevant information,
- and to improve the ease with which key nodes of creativity, be they in the domains of Education, Commerce, Culture or across disciplines, can gain access to the best thinking, best questions, and most successful practices as well as other resources their ventures may require.

Our strategy is to engage thought leaders across North America to create a powerful network for transformation.
