## ORDERING TIPS

### ATTENTION

All standard rails are 2 3/8" wide.

All standard center rails are 2 3/4" wide.

When ordering rails that are not standard size, please give overall sizes.

Example:

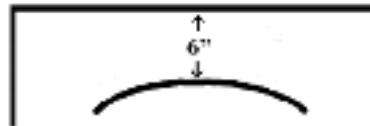

### Concerning Top Rails (T.R.)

On T.R.'s that are special, it is helpful to have above arch measurements.

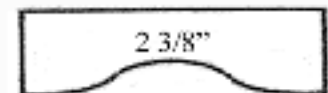

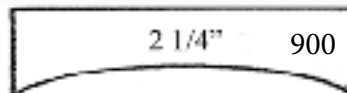

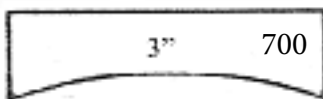

Example:

List as 6" above arch

All standard T.R.'s measure 2 3/8" above arch except RP700 and RP900.

### Concerning Center Rails (C.R.)

- All doors exceeding 48" will have a C.R. unless otherwise specified.
- If wall and base cabinet doors are arched, an arched C.R. will be put in double panel doors unless otherwise specified.
- If Wall cabinet doors are arches and base cabinet doors are RP100, a RP100 C.R. will be put in double panel doors unless otherwise specified.

### Concerning Lazy Susans (L.S.)

- Please specify any (or all) wider rails.
- Three sides of L.S. doors will be edged as per rest of doors on job unless otherwise specified.

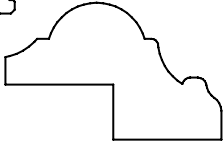

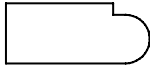

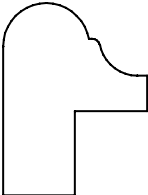

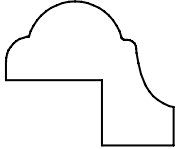

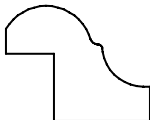

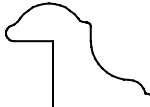

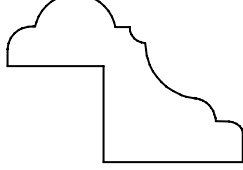

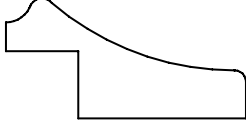

### Concerning Double Doors (D.)

- Order D. doors exact size needed.
- All D. doors will receive bevel on D. side unless otherwise specified.

*Our wish is to give the best service, and to better understand your needs.*
