

Personal gate code

In an attempt to provide another layer of privacy to all homeowners living in the Andover/Emery Northern Terrace Homeowners Association, the association will be issuing personal gate codes for entry at the gates.

There will no longer be a universal code. Each homeowner will choose their own 4-digit personal code. The system will still have your phone number for contact to allow guests to enter the community, you can now use your cell number as well. Just press 9 to allow access when you are called. All gate remotes and ID badges will also still be used to enter the community.

This new system will allow the board to monitor the use of the gate codes in the event it is compromised and save on mailing costs to change the code.

This allows you to share this PRIVATE code with your family. If the time comes where it appears your code may have been compromised, you will be contacted and issued a new code.

Please enter the code of your choice below. If you would also like to change or confirm the telephone number in the directory or add your cell number, you may do so below. The current universal code will be removed by January 15, 2017.

Enter your personal code here_____.

Update your telephone number for the directory here

(____)_____

Name/Address_____

You can email/ mail or drop this form off at the clubhouse.
