COMPANY OVERVIEW

Solar 92 Engineering Services, a proud division of the esteemed PPAM SOLKRAFT family, is a leading provider of alternative energy solutions. With a robust presence across Europe and Pakistan, we specialize in solar engineering, procurement, and construction, with a distinct focus on system design and implementation.

At Solar 92 Engineering Services, our core strength lies in the meticulous design and seamless implementation of solar energy systems. Leveraging our extensive knowledge, we tailor solutions for industries, commercial buildings, and residential use, ensuring optimal performance and energy efficiency.

OUR PROCESS

Mission

At Solar 92 Engineering Services, we are driven by a commitment to providing cutting-edge alternative energy solutions. Specializing in solar engineering, procurement, and construction, we pave the way for a sustainable and eco-friendly future.

Key Attributes:

Global Reach: Our influence extends across Europe and Pakistan, positioning us as a key player in the international solar energy landscape. This global presence allows us to adapt and tailor our solutions to diverse environments and requirements.

End-to-End Excellence: As a comprehensive solar services provider, we take pride in our end-to-end capabilities. From meticulous planning and design to efficient procurement and construction, we ensure the seamless execution of projects from inception to completion.

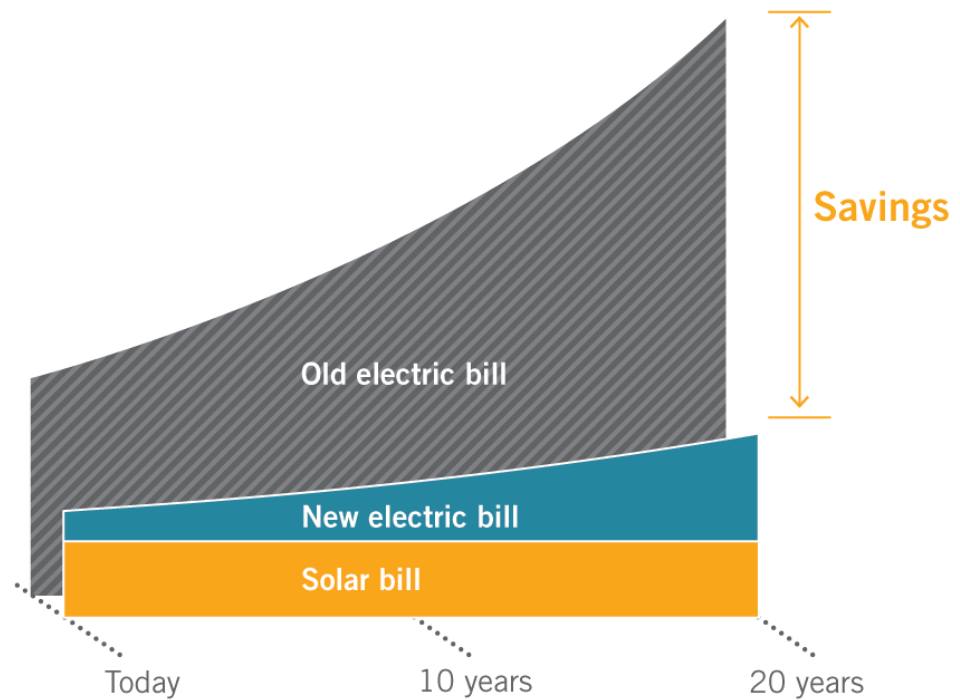

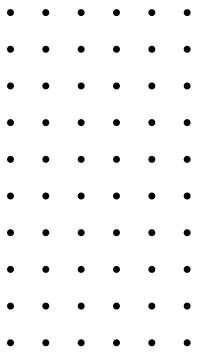

Innovative Solutions: Embracing innovation is at the core of our philosophy. We consistently explore and integrate the latest advancements in solar technology, ensuring our clients benefit from state-of-the-art solutions.

CAMPANY VALUES

- **Sustainability:** We are dedicated to promoting environmental sustainability through the widespread adoption of solar energy, contributing to a cleaner and greener planet.
- **Quality Assurance:** Our commitment to excellence is reflected in the high standards we uphold in every project. We guarantee quality at every stage, ensuring the reliability and longevity of our installations.
- **Integrity and Transparency:** We conduct our business with the utmost integrity and transparency, fostering trust with our clients and partners.

WHAT WE OFFER

Solar Plants for Industries: We offer bespoke energy solutions for industrial applications, optimising processes, reducing environmental impact and reduce electricity bills to zero.

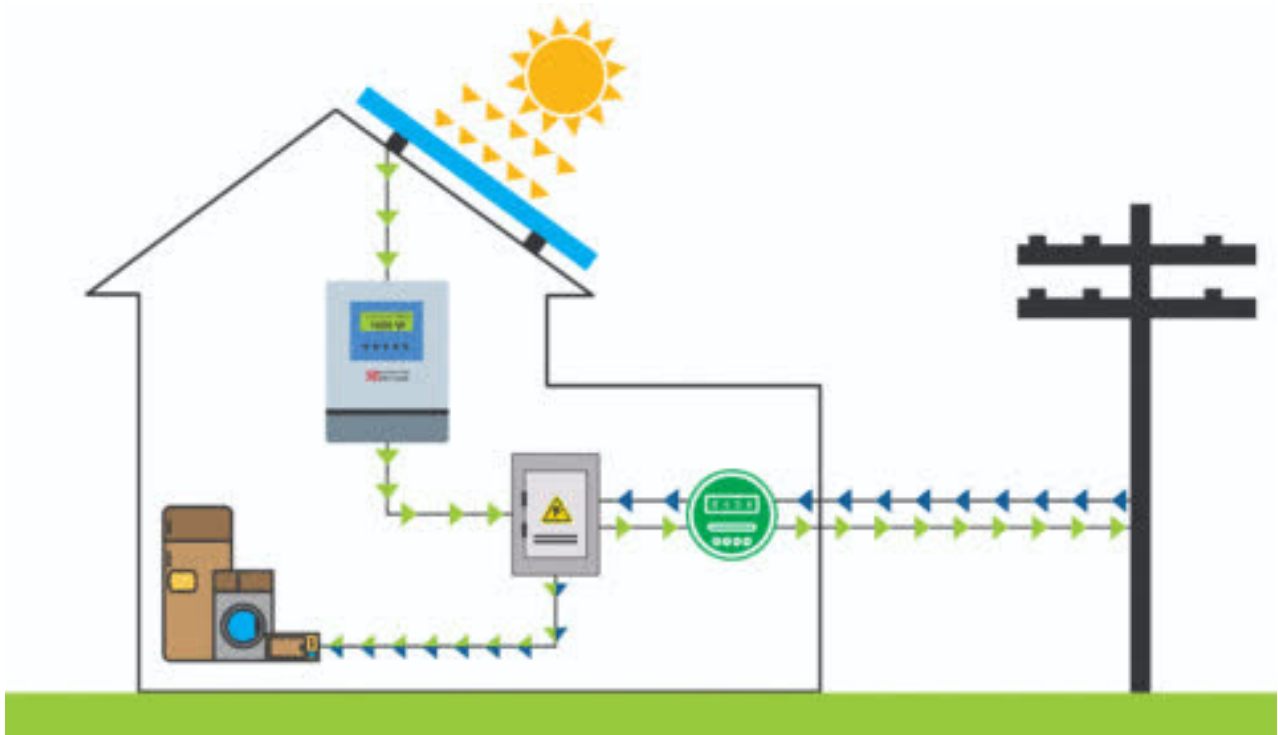

Solar Solutions for Commercial Buildings: Our expertise extends to designing and implementing solar solutions for commercial spaces, shopping centers schools and hospitals contributing to cost savings and sustainability.

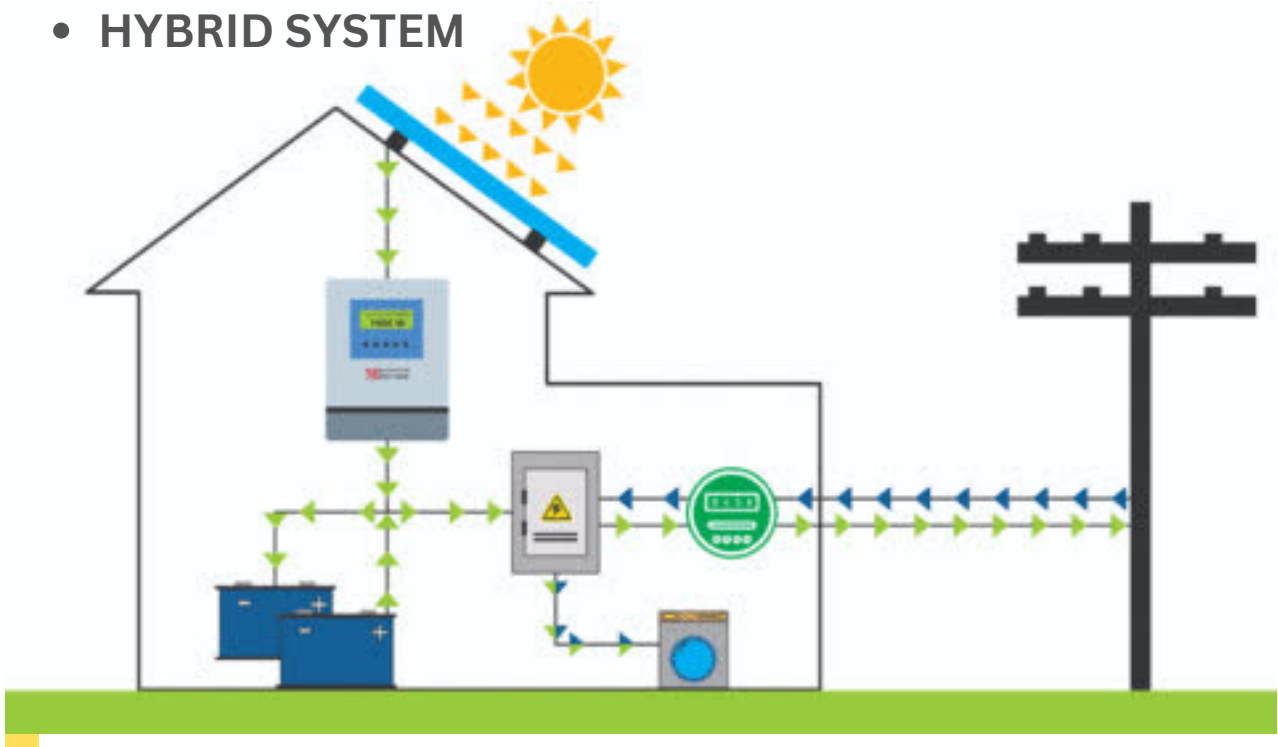

Solar for Residential Use: Homeowners can benefit from our residential solar solutions, enjoying reliable, clean energy for a sustainable lifestyle.

HOW SOLAR ENERGY WORKS

- GRID-TIE SYSTEM

- HYBRID SYSTEM

PROJECTS HIGHLIGHTS

- 103KW Industrial Solar plant

- 83Kw solar system at SCCI

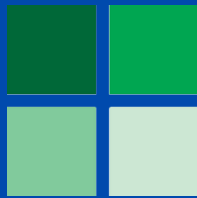

- 30KW system at Commercial

- 125Kw solar system at FAC

OUR PARTNERS
