

## **COVID-19 UPDATE**

At this time, Caribbean Label Crafts Limited and Label Crafts Jamaica Limited are not experiencing a disruption in raw material supply due to the Coronavirus outbreak. We would like to assure you none of our raw materials or raw material components are sourced from China or other sites currently severely impacted by the Coronavirus.

At this time, our inventories are at good levels, and we currently do not have supply concerns for any of our raw materials originating from the USA, UK, Spain, Germany, Austria, Colombia and Brazil. Additionally, we have asked our suppliers to provide us with updates of any and all supply concerns they may have from their feedstock producers. At this time, there are no concerns from these suppliers.

This is certainly a fluid situation and we are following it closely. We have initiated weekly consultations with our suppliers to monitor the supply of raw materials. If the situation changes, Caribbean Label Crafts Limited and Label Crafts Jamaica Limited will take immediate measures to notify you and work with our suppliers to mitigate any possible impacts.

The health of our team members regionally is always critically important, especially amid continued concerns about COVID-19. Due to the continued spread of the virus, we have asked our team members to avoid business travel as much as possible until further notice. We will leverage technology such as conference calls, webcasts or video calls (Skype, ZOOM) to maintain close contact with our customers. We are always available by telephone and WhatsApp.

Clients who may be scheduled to visit Caribbean Label Crafts Limited and Label Crafts Jamaica Limited for pressroom approvals, press proofs or to work with the Design Studio should reconsider such visits. We have the technology resources to work with you online and for press proofs will run a range of proofs and options under the supervision of your Business Development Executive and the Design Team and ship these by courier at no additional cost.

We will continue to provide updates as necessary. Please remain calm, follow recommendations from the World Health Organization (WHO) and the policies of your local government and stay safe!

Best Regards

**Paul Evelyn**  
CEO / Managing Director
