Tips and Tricks from OSXDaily

**W**allet— formerly known as Passbook — is Apple's answer to digitizing all the cards that are overflowing your billfold, purse, or pockets — including Apple Pay. Wallet stores virtual versions of all your passes, tickets, coupons, credit cards, debit cards, and loyalty cards so you can easily [access](#) them at any time. Wallet is also location aware and always online, so Wallet can even pull up and update the balance on your coffee shop card or gate number on your boarding pass, so you always know how much you have or where you need to be.

The CA has changed the rules again on us.

There is no more \$2.00 guest passes.

As it stands now if someone from Kings Point wants to come  
to a

Meeting they need to purchase A yearly pass for \$125.00.

But you never know they may change again soon,

Today we have a special guest

Patrick from Tech Brat

who will talk to us on various subjects

Review of iCloud , iPhone Camera, Control  
panel, Cool Apple features
