The Tech Brat

A little about me

Review of the iCloud

- How it affects individual devices

- How do I change my password

- How much storage do I have

- What if I sell a device

The Camera

- What is the difference between models

- What is live mode, how to turn it on and off

- Tips on better pictures

- On screen camera controls

- How to edit afterwards

- How to organize, tag, and find photos

Stay in control of the Control Panel

- What and where is it

- How do I customize it

- What do all these icons mean

- Why do we need this extra feature

Digitizing Analogue Audio

- What cables do I need?

- Let's talk about Quicktime

- Let's talk about other audio programs, Garage Band, Logic, Voice Recorder

- Why should I digitize my music?

- Do I need to keep my original recordings?

Some cool hidden Apple features

- Measurement/Level tool

- Files app

- Use the iPhone keyboard as a trackpad

- Swipe on calendar to move spaces

- Hide certain photos

- Siri nicknames, how to add to a contact

- How to quick disable Face ID

Questions

No such thing as a "dumb" tech question.
All this stuff is new even to us!
