

KAYU®-Borneo-Mahogany™ is a Meranti species and is also known as Philippines Mahogany. Possessing an incredible combination of beauty and performance, strength, and durability that is superior among even the finest decking materials available, of any kind. A proven Mother Nature performer for 100+ years in the most extreme and demanding applications. Kayu International imports the species from the East Side of Borneo, Indonesia.

Its dense cell structure and interlocking grain serves as a natural deterrent to decay, insects and mold caused by humidity, and deterioration caused by snow and hot summer days. Reliable for longevity, durability and low-maintenance. Always beautiful.

A proven performer for decades in the most demanding applications. 100% clear grade, kiln dried for consistency, smoothly finished, and always double checked by KAYU exclusive graders. Classic yacht wood above and below the waterline. Used by Chris Craft Boats for over 100 years until they changed to fiberglass. A consistent lighter colored wood.

This Species is Kayu® "Go-To" Exotic Hardwood for: Decking, Siding, Docks, Ceilings, Gates, Fencing Soffits, Fascia, Posts, Balusters and Privacy Screens.

KAYU®-Borneo-Mahogany™ Hardwood

- ✓ Reddish brown and uniform in color, beautiful Luster with natural moderate color variations.

KAYU®-Borneo-Mahogany™

Proven performer for decades in the most demanding applications
from coast to coast, year after year.

Disclaimer:

KAYU® hardwood products are carefully selected species and manufactured to ensure the finest quality. However, all natural wood is subject to some minor expansion and contraction as the moisture in the environment surrounding the wood changes through the seasons. Careful attention to our installation instructions will be important for long term performance and enjoyment.
