- **PDF**

- **JPG**

- **PNG**

Courses WE Will Enroll you fo

- ☐ OSHA 30 Construction
- ☐ OSHA 510 – Occupational Safety & Health Standards for the Construction Industry

Additional class you need

NFPA 70E 2024: Standard for Electrical Safety in the Workplace

Electrical power is an essential element at home and work. It can be a dangerous force if not managed properly and should be dealt with in a safe manner while conducting workplace operations.

As an employee or an employer, it is important that you understand the importance of electrical safety.

40-Hour EM 385-1-1 Training

<https://www.360training.com/course/40-hour-em-385-1-1-training>

About This Course

The new 40-hour EM 385-1-1 course is designed to provide comprehensive training on Safety and Occupational Health (SOH) Requirements based on the updated EM 385 manual, effective March 2024. This online course covers the latest regulations and guidelines outlined in the updated manual. The course has been expanded to include additional topics, incorporating essential material such as Rope Access, Uncrewed Aircraft, and Emergency Operations. In addition, Program Management has been split into two distinct chapters: one tailored for United States Army Corps of Engineers Personnel and another catered towards Contractors.

By signing below, I certify that the information provided on this enrollment form is true and accurate to the best of my knowledge. I understand that providing incorrect information may delay or prevent course registration. I also understand that course

completion requirements, attendance policies, and certification requirements must be met before receiving any certificate of completion.
