

2025 KLARA Simplex Challenge

Scale is

1:350,000
1" = 29,166 feet
1" = 5.5 miles

1) Towns pin your station ... in other words, we would expect you to locate your station within the towns on this map

2) Note that the southerly tier of townships is located in the Commonwealth of Pennsylvania.

3) Any villages, hamlets, crossroads, or other smaller sub-divisions are also in the contest. The only restriction is that they must be located within the exterior contest boundaries.

4) Please remember that this is intended as a "fun" contest.
