

## 2025 Dan Fulgham Memorial Prostate Cancer Symposium

### "How Artificial Intelligence is Revolutionizing Healthcare"

September 27, 2025 9:00 AM – 12:00 PM

Location: Fogelson Auditorium, Texas Health Presbyterian Dallas, 8200 Walnut Hill Lane

Join our exciting speakers to explore how artificial intelligence (AI) is revolutionizing healthcare, from diagnosis to treatment to recovery. This symposium unites patients, healthcare professionals, and technology experts to discuss how AI is currently being used to:

- Facilitate decision making and personalized treatments
- Provide new targets for prostate cancer treatment
- Organize medical records to facilitate access for patients and providers
- Match patients with beneficial clinical trials

A discussion of the use of AI in prostate cancer management will provide real-world examples of the benefits of this new approach to healthcare delivery.

#### Speakers

Harvey Castro, MD

Pat Fulgham, MD

Bo Holland

Todd Whitthorne

Jivesh Sharma, MD

A **free prostate cancer screening** will be offered on-site by the Texas Health Resources Mobile Screening Unit for men never diagnosed with prostate cancer or for men who are 5-years post-treatment for prostate cancer. Attendance at the symposium is not required.

#### Registration

The event is free, but registration is required. Register online by Sept 19 at [urologyfoundation.org](http://urologyfoundation.org) or call 214-695-1830 or email [aclark@urologyfoundation.org](mailto:aclark@urologyfoundation.org)

# 2025 Dan Fulgham Memorial Prostate Cancer Symposium

## Speakers

### Todd Whitthorne

Todd's gift of communication delivers an empowering combination of education and motivation which leads to powerful transformation. Leveraging an educational background in kinesiology and exercise physiology, fourteen years as a senior executive at the world-renowned Cooper Aerobics Center, and an Emmy-award winning broadcasting career, Todd helps organizations increase productivity and reduce absenteeism by empowering individuals to embrace healthy behaviors both personally and professionally. Todd currently is invested in companies focused on improving metabolic health, virtual checkups, and early cancer detection.

### Pat Fulgham, MD

Dr. Pat Fulgham is a distinguished board-certified urologist in Dallas, Texas, with over four decades of expertise in urologic care. Dr. Fulgham practiced for 35 years with Urology Clinics of North Texas, treating thousands of prostate cancer patients and ultimately becoming a prostate cancer survivor himself. He served as Surgical Director of Oncology at Texas Health Presbyterian Dallas from 1997 to 2024. He is the Director of Clinical Trials at Urology Clinics of North Texas, where he leads innovative research. As President of the Urology Research & Education Foundation, a 501c(3) non-profit, he is actively involved in educating the community about prostate cancer. <https://www.patfulghammd.com>

### Jivesh Sharma, MD

Dr. Jivesh Sharma is a highly accomplished medical oncologist with a career spanning over three decades. His core training was in translational research to accelerate the delivery of new treatments from the bench to the bedside. Dr. Sharma has made significant contributions to improving cancer care through direct patient care, teaching, research, and helping develop new healthcare technology solutions. He has held various leadership positions and has been recognized for his clinical excellence by being voted best doctors in Dallas by his physician peers multiple times. Dr. Sharma has authored numerous research articles, reports, and books focusing on oncology, healthcare technology, and patient care. He has been the recipient of multiple awards and honors throughout his career. Dr. Sharma is fluent in English, Spanish, Hindi, and Punjabi, and has a passion for languages and physical fitness. <https://thecentertx.com/physician/jivesh-sharma/>

### Bo Holland

Bo Holland is founder and CEO of Health Data Bank. Bo's vision was to create a platform where patients could securely access and store their entire medical history in one place. More importantly, it would offer personalized health guidance, tailored to each individual's unique medical profile.

### Harvey Castro, MD, MBA

Dr. Castro is an accomplished ER physician, AI futurist, and healthcare consultant with over 20 years of experience. He has authored several influential books on AI and healthcare, such as 'The Unofficial Guide to AI Mastery' and 'ChatGPT and Healthcare,' published in 2022. Harvey serves as an advisor to organizations like the Texas Medical Association and the Singapore Ministry of Health, contributing to the ethical integration of AI in healthcare. As a keynote speaker, Harvey has delivered presentations at global conferences, including HIMSS and TexMed24, focusing on the future of medicine and leadership in the AI era.
