Class Name/ Description:

TRX Pilates: Beginner to Advanced Class. A dynamic full-body workout blending traditional Pilates principles (breath, control. Flow) with TRX suspension training, using body weight and instability to build core strength, flexibility, balance and muscle tone.

Butts and Guts: All level class focusing on strengthening and toning your glutes (butt), core (guts), and lower body (hips, thighs, hamstrings) using dumbbells, kettlebells, resistance bands and gliders for a defined physique, better posture, and foundational strength.

Rebounder 20/20/20: Beginner to Advanced low impact cardio, strength and core exercises on a mini trampoline combining gentle bouncing, jogging or jumping jacks with core engagement for a full-body exercise that easy on the joints but builds endurance, strengthens bones, improves balance and boosts lymphatic drainage. 20 minutes warmup/cardio, 20 minutes strength, 20 minutes core/cool down.

Boxing/Core: Beginner to Advanced class that blends high intensity interval training with boxing drills, combining explosive punches (jabs, crosses, hooks, uppercuts) and defensive moves (slips, weaves). Expect a full body workout using heavy bags, gloves and mitts (gloves available to borrow).

Strength Training: All level full body workout using a mixture of TRX, kettlebells, dumbbells and bands designed to increase muscle mass, bone density, and endurance.

Total Body Bounce: Beginner to Advanced low impact cardio, strength and core exercises on a mini trampoline combining gentle bouncing, jogging or jumping jacks with core engagement for a full-body exercise that is easy on the joints but builds endurance, strengthens bones, improves balance and boosts lymphatic drainage. Instructor choices steady cardio dance or interval style.

Circuit Class: Move through a series of exercise stations using Presto Fitness modern and classical equipment for a class that feels like it's over as soon as it started, leaving you wanting to come back every week. The class is designed for beginners to advanced participants.

Stronger You: All level strength training program designed to build muscle by breaking down the major muscle groups into three one hour workout sessions. Mondays are Back & Bicep, Tuesdays are Lower Body and Thursdays are Chest & Tricep. Class includes mobility training

HIIT: Alternates short bursts of intense exercise with periods of rest or low intensity recovery, efficiently building cardiovascular endurance, burning fat and boosting metabolism.

Pelvic Floor Strengthening & Stretch: Reconnect with your core in this 30-minute class featuring pelvic floor strengthening for the first 15 minutes followed by deep restorative stretching.

Bounce & Box: Punch, bounce, and sweat your way through this high-energy workout that combines boxing-inspired moves with the fun of rebounding. Improve your cardio, coordination, balance, and endurance while enjoying a low impact, full body 45-minute workout.

Zumba + Lift: Combines high-energy, easy to follow Zumba dance cardio with strength training intervals using weights. You'll dance, lift, tone and sweat during this super fun workout.
