PRECEPTOR PSYCH

At Preceptor Psych we are trying to make a difference in the lives and futures of Nurse Practitioner Students.

At Preceptor Psych we are looking to partner with the best of the best in the field of psychiatry, and have just started working with other specialties as well. We seek preceptors with the passion and desire to assist nurse practitioner students to help set them on the path to success.

Our primary focus is to pair exceptional nurse practitioner students with exceptional physicians or licensed nurse practitioners. It still seems shocking that universities are not required to place these students with a preceptor. Together we can simplify the process and help students secure a preceptor and complete their clinical education. If you are interested in working with us as a preceptor, please visit **GET PSYCHED ALSO AND BECOME A PRECEPTOR TODAY!** and complete the provider form and we will then contact you.

By expanding our network of exceptional preceptors, we are providing more opportunities for NP's. We are helping to relieve some of the stress from this

process and enabling them to concentrate on their studies. Many Physicians and NP's find it an extremely rewarding experience to help engage with and teach and bring up the next generation of NP's.

In addition to the traditional honorariums you can also receive a referral fee for each preceptor whom you refer after he or she precepts one of our students. We are open to referrals in all specialties as well as psychiatry including students as we are now placing NP's in other specialties as well.

Share this referral code with your colleagues **GETPSYCHED2021**. Providers can fill out the appropriate form on our website and we will take it from there!

Kind Regards,
Lisa Schutzer, CEO
732-536-7241
